Choose your favorite artist whom you can describe using the adjectives that are attached to this task

Taylor Alison Swift is my favorite artist, she is thirty-three years old, she is tall as she is 1.78, she has very nice long legs which give her a lot of poise wherever she appears, her neck is long and thin, she usually adorns it with very nice necklaces depending on the occasion, she has a pronounced forehead so she covers it with her distinctive hairnet. Her hair is wavy, silky and long, ash blonde. Her face is oval and thin; what stands out the most are her blue eyes with almond shape since in her concerts they are very intense due to the lights. She has outlined and relatively thick eyebrows that she usually makes up since her hairs are of a light color and she has to darken them a little more to be in harmony with her face. Her nose is small and upturned, she has relatively thick pink lips that she usually paints red, her skin color is light but not pale, her complexion is slim but stylized since her curves are denoted and contoured. She does not have any tattoos as she feels it is something very compromising, but does not shy away from the idea of having one in the future.
