The black Phone.

My name is Alberto Shawn, I am 1.75 tall and I am known as the Raptor or Grabber, I live with my brother Max in Denver, United States.

I am a magician and a serial killer (Psychopath), I have the ability to listen to phone conversations and manipulate them.

I like to play naughty boy, which involves torturing and teenagers as I can.

In 1978 I kidnapped five children with my truck, leaving black balloons as a sign, and locked them in the basement of my house where I physically and psychologically tortured them until they were murdered. This year, Finney, the last child I kidnapped, had the same abilities to listen to the phone as me, and when he died he was not afraid of me, but my brother did not know my psychotic side and when I discovered that I had the boy locked up, I murdered him, minutes later, when I went to get the child, he set a trap for me where we had a fight, I fell into a hole and broke my ankle. It was at that moment where he wrapped the phone cord with all his strength and broke my neck, killing me instantly.
