# Red Queen.

Hello, my name is Irdaebeth from Crims, better known as the red queen, I am the main villain of the movie Alice in Wonderland.

I am a sovereign who rules in the word of chess, I have no magical powers but I am powerful over my subjects and like to order the execution of anyone who betrays me or disobeys me.

My enemies are Alice and my sister Miranda known as the white queen because we are always at odds and there are always fights between our kingdoms.

I always try to end my sister's reign so I can defeat my enemy Alice but I never succeed because somehow something always goes wrong.

All my subjects are with me out of fear and for having the privilege of being within my kingdom.

In one more attempt to try to destroy my enemies. I made a plan to destroy them and the only thing I achieved was my own destruction.

They wiped out a large part of my army and turned the others who survived against me, and well I had to surrender to this situation.

My sister sent me far away and left me without any contact with people.
