Nombre del Alumno: Cristian Yahir Santos Diaz

Nombre del Tema: Presentación en inglés

Parcial: III Unidad

Nombre de la Materia: Inglés 1

Nombre del Profesor: Jhoani Elizabeth Perez Lopez

Nombre de la Carrera: Medicina Veterinaria y Zootecnia

Semestre: 1°

Hello, good morning everyone. My name is cristian Yahir, I'm 19 and I'm from ocosingo.

My halloween costume is the werewolf. My story is a mystery because it is still not known for sure when it began, but the truth is that my legend is present in all the folklore stories.

My story began in Greece as told by Plato.

I am the seventh male child. My legend says that all of us seventh sons turn into werewolves every time the full moon rises. The same goes for people who are bitten by a werewolf.

We werewolves act with ferocity and stealth until we later return to normal as a mortal. Some times we remember the moment of our transformation and sometimes we do not.

It is important to mention that: when we are not transformed into werewolves we retain certain special characteristic for example: we are more hairy, our body

sense is more developed and we have a good sense of smell unlike mortals and we also have a good health and a good physical condition.

My legend was so ingrained with the Seventh Sons that all seventh sons were abandoned and sometimes killed because people say that we are a danger to humanity.
