EMMANUEL PEREZ PEREZ RESUMEN DE VIDA

My name is Emmanuel Perez Perez, I am 17 years old, born in Villahermosa, Tabasco, I studied my primary and secondary kindergarten in Villahermosa, my high school for major reasons, I had to study in Tuxtla at a school called Conalep, where I finished my high school with a technical degree specialized in optometry, culminating my high school I moved again and that's how I ended up in Pichucalco and thanks to that I am now studying my university at the UDS. I come from a family made up of 4 Major brothers, 2 sisters and two brothers and my parents and my mother. My dad's name is Cupberto Perez. ballina and my mother is adelina perez garcia my older brother is gerardo perez perez, juana victoria perez perez, maryantonia perez perez, and gurmercindo perez perez my mother is a housewife my father dedicates himself full time to field work my 3 first siblings They are older, my brother Gerardo completed his studies and is a public accountant, my sister Juana Victoria is a graduate. In criminal law, my sister Maryantonia is a graduate. in business administration and my brother Gumermercindo is currently studying with me at the same school, only he is in social work. My two sisters are married and have children, but one is a housewife and the other is not. She is Juana Victora and she is currently a magistrate in the superior court of justice of Villahermosa and my older brother is single and works in an office. As a youngest son, I currently study and work. I am a big fan of going out and relaxing and eating a lot of junk food. In the same way, I enjoy watching movies and listening to music. I hate that They yell at me and treat me badly and I hate the onion. I went into nursing as a second option but I have seen that it is a very nice career but I really wanted to study psychology. I like making friends and listening to their problems and giving advice. I consider myself a good-natured young man and Liberal, always open to new experiences. I currently love Pichucalco because in the short time I have been here I have made great friends and have lived with many nice people and day by day I meet new people and therefore new friends. I would love to one day complete my career as a nurse. Let's hope to God that it is possible and keep moving forward. I have many plans ahead of me and I hope they come true. I am currently single, not because of a lack of suitors, but because I want to focus on my studies and first complete a career and then, when I have a stable life, achieve my partner to be able to offer him a stable and good life I am very optimistic and persistent and I hope to achieve the goals that I have set for myself as I have planned. I am from November 24, 2005 I am a Sagittarius sign and on this coming November 24 I am exhausted of age and I am very happy

I will be ready for new job opportunities, I will have more options and I will be able to get a better job where I earn more and thus have a higher income. I am a fan of tranquility and sometimes I think that loneliness is something very beautiful, of course at Because certain times, not always why live alone Yes, it would be something ugly, but that's my thought. I don't like playing sports. I'm hardly a fan of running and sweating, but I like to watch how they play soccer or basketball. It's the only thing in my life. I repeat, I'm Emmenuel Perez Perez and it was a pleasure to see you talk about it. my life, I hope you liked my reading and happy day.
