Nombre de la Licenciatura: Enfermería

Cuatrimestre: 1^{er} cuatrimestre

Pichucalco, Chiapas; a 14 de noviembre del 2023

It's nice to meet you:

Hello, my name is Perla Lizet Álvarez Cruz, I am 19 years old, I was born on October 22, 2004 in the General Hospital of Pichucalco, Chiapas, where I currently live, my mother's name is Rosa Nelly Álvarez Cruz and I don't know about my father a lot since she took charge alone, I also have two older brothers, Gustavo Guadalupe González Álvarez and Luis Alfredo González Álvarez, sons of my mother's first marriage and my younger brother Sergio Alexander Álvarez Cruz.

In 2007 at the preschool level at the “Leona Vicario” Kindergarten where I had to adapt to a new stage, I graduated in 2010. Later I attended the 6 years of primary school at the “24 de Febrero” Federal School and graduated in the year 2016. I studied high school in the afternoon shift at the “Gral” State Secondary School. Carlos A. Vidal”, a stage in which I was able to realize that my academic performance improved a lot, it is also very important since I met many special friends in my life, I finally graduated in 2019.

I studied high school at the “14 de Septiembre” State High School. It should be noted that it was a very nice stage because I made new friends, learned new things and enjoyed it a lot, however it was full of challenges since the pandemic occurred in 2020. Caused by COVID-19, I had to adapt to virtual classrooms and other changes, after this I was in the area of Chemists – Biologists, finally in 2022.

After leaving high school I was very sure that I wanted to study nursing but unfortunately I was not able to study that year because my mother became ill and many expenses were covered for her medical care and my plans were not carried out, after recovery from my mother, I started working in a clothing store, I had to

adapt and be more independent, in addition to this a lot of responsibility is needed, all this until now, it was until the month of July of this year, taking into account the circumstances I decided at the Universidad del Sureste UDS in the nursing career on Saturday and in this way to be able to work and cover the tuition fees, this represented a very important decision in my life since working and studying is a great challenge, but all with clear effort that is can achieve. On September 9 of this year, I entered university, I am currently in the first semester of nursing and I am very happy with this stage of my life.

I consider myself a happy, intelligent, sociable, kind, responsible and good friend. I always try to give my best. I have projects and goals that I want to accomplish, such as finishing my university degree and rewarding my mother for everything she has done. For us. I like to work hard to get what I want, I don't like getting bad grades, I try to improve every day, facing each of the challenges that come into my life.

Regarding my musical tastes, I don't have a defined one, I listen to various genres, reggaeton, pop among others, but I am also a fan of old music, I like to listen to music in English from artists like The Weekend, Adele, Dua Lipa, Taylor and others. I really like to dance to all kinds of music, I really enjoy it a lot.

My favorite food is spaghetti and mole, I love to eat that makes me very happy, I also like to eat pizza, tacos, French fries and I really like Coca-Cola. I actually love everything my mom prepares, she is my favorite cook.

I like action movies, I am a big fan of them, I love Disney and Marvel movies, I am a big fan of Spiderman, any object or thing that is about this character is super nice to me.

I like books of the romantic genre or those that are informative. I don't usually play sports but I really like volleyball, previously I used to play with my friends at the sports unit in the afternoons.

I like to spend time with my family and have family gatherings in a row and thus coexist. I really like going out with my friends and living with them. I love spending time with my best friend since I currently don't see her often, because she studies somewhere else.

I love animals, I am very affectionate with them, I have two pets, a Chihuahua dog named Chloe, I have had her for 7 years, also about a year ago I decided to adopt a cat that I called Ronni, both are very important in my life since they They provide me with loyal and pure love.

Why did I decide to study nursing?

Since I was in high school, I have yearned for it with my heart, I was so excited to see girls in their nurse uniform and think about one day wearing it too. It is a very beautiful career that I have always liked and I have decided to study it to help others, take care of them and to see the health of patients. I like it because it is a career in which you are involved in the care of others and not only that but also knowing the needs of others, sympathy is always present and I think I would be a great nurse. The work field is very broad and that catches my attention, not only that, also in this way I could take care of my family, I believe that I can be professional and do my job with dedication, love, empathy and above all have the necessary vocation.
