Nombre del profesor: Teresita de Jesús Trejo Pérez

Nombre de la Licenciatura: Enfermería

Cuatrimestre: I

AUTOBIOGRAFIA

Hello, my name is Jonathan Díaz Gómez, I am 18 years old, I am a Mexican national. I live in a town called El Triumph, first section, better known as Cardona. I was born in the municipality of Juárez Chiapas, my mother's name is Margarita Gómez Hernández and my father's name is Octavio Díaz Martínez. I have two siblings, a 20-year-old sister named Blanca Luz Díaz Gómez and an eight-year-old brother named Octavio Díaz Gómez My parents live separately and for that reason I had to work from a very young age but also thanks to that I learned to organize myself I learned to see the value of things and I learned to earn my money honestly. When I was born shortly after, we moved to Tijuana, Baja California, and there I studied in a kindergarten called María Teresa de Calcuta Kindergarten. When I was 5 years old we moved back to our hometown, I continued studying. They put me in a kindergarten called José Mariano Abasolo Kindergarten where I finished my kindergarten. When I was 5 years old I had surgery, since I came out with appendicitis. I studied my primary school in my first year and her name was La Corregidora I uploaded my secondary school in my town and it is called telesecundaria 140 Amado Nervo In high school I studied it in the municipality of Juárez and it is the cobach campus 42. When I entered high school, I bought my first phone, since I needed it to communicate at work and at school. And when I left high school it broke and I had to buy my second phone because in high school they asked me for it due to the covid pandemic. At the end of my high school there was a girl that I liked too much, and I decided to tell her what I felt for her, with fear and courage I told her and she accepted me, and so far we are doing well, We have been dating for almost a year, and I don't regret anything. We are both studying so that in the future we can live in peace. I really like sports, especially football. As a child I always participated in anything: sports, dance and knowledge. Likewise, I like cooking too much, I love cooking, I love animated series, and I also love listening to music, if preferable, all day with my headphones. I have a pet cat which I called Toothless. I decided to study nursing because the health area attracted my attention too much, as well as because I have too many uncles and cousins who told me to study nursing

I wasn't going to regret it, it might be a little difficult at first, but I wouldn't back down, and that's because of the short time I've been studying, I love my degree too much. Previously in high school, due to the pandemic, I was no longer planning to continue studying, but several people motivated me and opened my eyes to continue studying, that I will not let this opportunity pass by because there were several people who would like to study but do not have the necessary resources and that I would better take advantage of that. In conclusion, I decided to study the degree to see my limits and because it was something that caught my attention, it was not my first option but I do not regret having entered into this degree either.
