## It` s nice to meet you

Hello my name is cecilia guadalupe gomez morales , i` m seventeen years dol  
iw was born in the state of Tabasco on november whenty two I currently live in the  
chapultepec from teapa my parents separated and his name marco andy mom is  
norma , I currently live with my mother and my two sisters valeria , eight years old ,  
and isabella for months old .

I studied primary and kindergarten in ostuacan chiapas , but due to family details I  
moved to juarez and later finished my secordary and high school there in cobach  
juarez with the help of god and my mother , in musical tstes , I don`t like everything  
reggaeton , banda , romantic ballads , etc ,. I like to dance to jthe music that I like  
and be able to feel it in my soul and being . My favorite food is aslo green  
enchiladas with a lot of cheese and a good molcajete sause , but I like it even more  
when mom prepares it and its delicious seasoning .

I do have my tasten in mivies , i love all those that are romantic because they  
transmit joy an unfound feelings to me , but I aslo like horror movies that talk about  
mystery portals , and faction science . I still like the books , only that i rea very few  
of them . The one i` m still reading is a beat that I didn t` say I like because it  
teaches me how to be more open and free with myself and friends and family , but  
also whe I read it I start to see videos dr reviews of the book that interests me .

My favorite sport is soccer because it is an entertaining game and very good for  
the physical body , and those are moments that I share with my friends , family ,  
neighbors , etc . But also like it because I have liked to play it since I was very  
young and that is why it is favorite sport.

I have a pet named rambo who is eight years ol that I adore , I love him and I will  
love him all my life , he is a german shepherd and every time I feel a olone , sad ,  
discouraged , he is the one who is there , all my family love him too , he is very  
irritable with them But every time he goes out into the street he scares people

away . The last time took him for a walk he was about to bite a man and since that day he has only stayed inside my house , but what I like most is that he is very organized and very intelligent .

I chose this career because the one I wanted was' n t just as far as tuxtla , which wanted was pedagogy , but I don' t regret studying this career at all . Science and injections have always drawn my attention , but I know that over time I will love it more and I will learn much more than just injecting , of all that what makes me happy . She always liked this race and for me , for her I will finish it if good allows it.

But also other things that caught my attention are that it is not only about seeing , but about putting into practice everything learned over time , but I ask God to be able to finish life and give me the strength to continue because even I am beginning.
