It's nice to meet you

Hello, my name is Beatriz Arguelles Garcia and I am 18 years old and my birthday was in October 2005. I was born in Solosuchiapas and I live in Sonora, municipality of Solosuchiapas. My parents are Isabelino Arguelles Sanchez, and Marbella Garcia Castellanos and they are super good people, thanks to my parents I have been able to achieve many things, with their love, trust, kindness, values that they have taught me, they make me feel happy but the best of all is seeing them together and knowing that I can count on them at any time, with work and effort you can achieve many things, but having love unconditional and sincere from my parents is something that cannot be achieved with all the gold in the world, it is something that life gives us and I am forever grateful to my parents. I have six siblings, they are three men and three women, and since I am the smallest of the women, I can say about them that I was lucky that life gave me the best companions in my life, I love my brothers with all my heart. I have a brother who is no longer with us because he went to work far away, to Colima, but not having him around, I remember his laughs, talks, moments in which we lived together like forgetting wonderful moments, but I have the joy of maybe one day return to us. I studied kindergarten in my community called Sonora, municipality of Solosuchiapa, and in the same way I studied primary school there, and I studied high school at school 55 "La Gloria", municipality of Ixtapangajoya. From there I was able to have great friends and meet my two best friends, Liseth Maribel and Cristian, I get along very well with them, we share happy, pleasant moments, sadness but we have always helped each other get ahead, and I also had the privilege of meeting my teacher, and we became good friends who we still talk to today, but the most beautiful thing about this friendship is that he advises me, helps me, supports me, it is something that I am deeply grateful for having found great friends.

My tastes are, my music is many, I like a little bit of everything, like bands, cumbias, tropical, bachata, merengue and reggaeton, I also really like romantic music like the reckless ones, liberation, marco antonio solis, the Yonich, Conjunto primavera, and Andy Zuniga, but I like him much more Romeo Santos' music, the one called "Huellas" and "Imitadora" are the ones that I love the most. My favorite food is coca chicken, and mole, I really like polish meat and for dessert I like cold cake, I also really like fruits and vegetables, I like to eat natural foods. My favorite movie is "Spirit", it's the one I like the most, because the movie is all about horses and I love too many of them. I'm fascinated by horses since I was little, which is why I consider it one of my best movies. My favorite book is "Think like a horse". My favorite sport is soccer, I like it, but I have to stop practicing it, but I would like to play the sport again, and overcome the obstacle of fear of playing again. When I was playing soccer, I had an accident and I broke my leg and since then that's when I got scared and they don't give me any more desire to play, I still like to run, exercise, walk, but what I like and am most passionate about is dancing to tropical music, northern music, bachata, and cumbias as well. I love dancing a lot of those songs, it is something that relaxes me, de-stresses me, frees me. I have a pet, a cat that is called Camilo, my worshiped michi I love him very much, I am very aid with him, because I give him to eat, I consent to him a lot, I give him love, I like my cat because it is very tender and has big and green eyes, and it is barsino but he is a cat that he likes to sleep in the day, and also leaves home, I confess that with him many photos and with the fun time fun, incredible. I have a coffee horse and he is an amazing animal, it

is a love likes that I mount it and go for a walk around the field that is something nice to look at sunset together with my best friend my beautiful horse I love him. And eleji study this nursing career because I lake it, I'm striking, I like the white suit fascinates me and also because it is to take care of, cure, accompany why it is to give love, give smiles, darling, have empathy with patients and if I would like to finish the race and become someone in life with a nursing profession,of knowing, and on the world of nurses, I still want to achieve it by my family to get ahead, I would like to get help them and give them a little about how mush they give me...
