## It's nice to meet you

Hi my name is Briseida Alvarez Hernandez i'm ten nine years ol currently I live in the Ejido la Gloria Chiapas. I was born on the twentieth of september of the i am an only child my parends they are original of Glory Chiapas my mother it called Martina and my father is Nelson, she has foty-three year and my father has forty-one years our house it is localet in the center from the Ejido.

Study the preschool called Rosario Castellanos Figueroa, there i met to my carrent friends, I don't remember much, from that stage in preschool I just doing my homework and paiting a lot, also remember that they put a finger on me but my childhood stage was happy.

They primary the wing that arrived it was still nex to my house i'ts called Rafael Ramirez Castañeda i like coming to the primary, when I entered the first grade I ready knew how to read and write, when I entered the third year of primary school I discovered that I loved to draw, after that pass to the secondary wing istayed close to home there I started playing sports and I realized that football it was what I liked the most the time I was in high school I used to take a craft workshop he loved to learn new things I finish my stage in high school and enter the cobach Plantel 055 La Gloria Chiapas itwas three years it was a very difficult stage why I didn't like walking and I was staying awas from home.

I'm happy i lik solitude and listening to music, I love orange and pink sunsets they give me peace and i get lost in them also the nights with the moon and the sky full of stars.

It think about how beutiful it is and I feel so lucky.

Another thing i like is reading novels short stories oh romantic stories. Of horror or suspense or biographies of important people.

I am a person who loves cloudy rainy days and cool maybe why do I sleep more. In my free time i like to whatch movies my favorite saga is Twilight I would watch it a thousand times and it doesn't bore me.

I have a slight obsession with Disney cartoons. I love the little details the handmade cards and the flowers.

I love chocolate bubblegum and vainilla ife cream the stuffed biscuits. My favorite food is sweet mole and beef steak.

My favorite colors are: black, wine, red. I love to sleep, but there is something more in this life that I like and it's my job as a community educator I have been working there for two years and I take care of preschool children I really love my job.

I am a very kind respectful and affectionate humble girl although I always have a bitter face I like to sing, do hairstyles, I love motorcycles and I love cats and dogs, rabbits, ducks.

I like to make friends although I'm a little shy at first but then I gain confidence and I'm unbearable. I consider myself a responsible person I have a lot of patience to get things done I like to be punctual in everything. I am also one of the people who likes to help and learn new things.

There's something I've always loved in this life and it has been learning to design posters in a digital way I dreamed of studying that career but I stayed in a frustrated dream. I like the place where I live it's always fresh there are many trees, hills and birds and the very kind people.

I also love my career and hope to be a great nurse.

I chose this career, why I like to help people. I hope to do as it should be with love and respect why so. I would like then to treat my family, another thing is to be able to save people and relieve their pain how I wish my grandmother had been saved.

I think this beautiful race will help me save my mom since she is hypertensive and if I can't be a doctor at least I'll be her nurse and not only from her but also from people who need help that's why I like this race why it's about helping and putting yourself in someone else's shoes and understanding their pain. I hope to make it and be a great nurse.
