Patient Name : Liam Bernal Cosio

### Descripción

Blue eyes, white and pale skin, Brown hair with blonde tones, age 8 years, height of 1.10, male , weight 57 kg, fever of 39 degrees, Your mood is depressed with discomfort when speaking and has not wanted to eat anything solid, The child's caregiver is a 28-year-old woman named Isela Cosio Cruz, with no relatives with any illness. At this time the child is crying from pain on a pain scale is 7 feels a lot of discomfort

The symptoms they present are fever of 39 degrees, pain in the throat area The mother comments that it started as a cold, but as the days went by the discomfort was getting worse causing more pain.

The possibility that it is a cold was ruled out, The patient comments that when swallowing solid or hard foods he feels burning in the throat and pain in the eardrums, When touching the throat area you may notice an irritation, It was also noted at the time of the review that your tonsils are swollen probably from an infection.

You were prescribed rest and medicine for infection.
