Cuatrimestre: Primer cuatrimestre

It's nice to meet you

Hello my name is Ximena Jesús Hernández, I am the eight years old, I was born in Pichucalco Chiapas and I am of Mexican nationality. I live on primo de verdad street with my family, my mom's name is Amalia Hernández Mena, she is forty-six years old and she was also born here in Pichucalco, my dad's name is Juan Antonio Jesús Álvarez and he is fifty-nine years old, my dad was born in Tabasco. Also living with me are my sister and brother-in-law along with my niece, my sister's name is Maria Jose Jesús Hernández she is twenty-five years old, my brother-in-law's name is Andrés Alejandro Melquiades Galera and he is twenty-six years old and my niece's name is Alejandra and she is only five months old.

I entered kindergarten Josefina Ramos Del Rio when I was three years old, I had fun playing with my friends at recess and I learned many things, I was in the escort and I liked to participate in any kind of dances.

Then I went to elementary school where I spent six long years, I studied at the Twenty-fourth of February school and had many friends, where I learned many things and above all I saw new subjects, some subjects were also complicated, such as mathematics. Then I went to high school, I studied at the Carlos A. Vidal state high school where I did very well, I was part of the council the second year of high school, where I organized events every festivity there was, in the third year I was deputy head but unfortunately, I could not conclude my third year of high school in person because of all the complications of covid-19 and I did not have graduation.

Then I studied high school at Fourteenth of September, but I entered until the fourth semester due to complications of the disease, my time in high school was amazing, I was surrounded by friends that I will never forget and that will be special for my whole life, I just recently got out of it.

Now I'm in college, at the Universidad del Sureste, I'm just starting and so far, I've done well. I chose psychology as a career, I have always liked to listen to people, I consider myself very good at it, I like to be there for them and advise them on anything that happens to them, to give them support in the problem they have, since I was very little, I have been constantly giving advice to my loved ones. It is a very nice and important career for people, to help them in their mental problems among many other things, psychology is based on the study of the behavior or conduct of each individual, based on this we can know many things about people as for example, the behavior of each individual.

My favorite genre of music is all of them, I don't have a specific one, but my favorite song is Redbone by Childish Gambino.

My favorite food is tacos, because they make a delicious food for me, I could eat them every day, since I was very young, I have liked them, basically I like all kinds of food, but I prefer tacos.

My favorite movies are Jurassic Park or Jurassic World, in itself everything that has to do with dinosaurs, as well as documentaries about them, I am very interested in everything related to dinosaurs from a very young age, the genre of film that I like is difficult to choose because I like horror movies, action, animation and love.

I really like to read love stuff, novels related to that, I like how the stories develop and I get excited to know what the ending is, I like unexpected endings, my favorite books are All the Boys I Fell in Love with and the Kiera Cass trilogy that are the selection, the elite and finally the chosen one, Very beautiful and interesting stories that I love.

The sport I like the most is volleyball and soccer; in elementary school I practiced soccer playing with my friends at recess and I started playing volleyball since high school and since then I play it.

I really like having pets, I have a dog called Venus and she is very funny, but she also breaks everything, she is two years old and she is very cute, she has always been with me at all times, she always sleeps and runs all over my house and the yard, but that's how I love her.

I also really like flowers, my favorites are tulips because they are very beautiful, my favorite season is spring because the flowers look really cute and many butterflies come out, my favorite holiday is the Day of the Dead because we go trick or treating in costume and Christmas because my family is gathered on that day.
