It's nice to meet you

Hello , good morning my name is Azucena Del Rosario López Vázquez I am 20 years old , I am mexican and I live in Camóapita Sinai , a community in Pichucalco municipality of Chiapas. I was born in the pichucalco hospital on october 30 of 2003 .

My father's name is Abigail López de la Cruz he is a rancher and my mother's name is Miguelina Vázquez Rodríguez and she is a housewife , both of them are 54 years old.

I have four brothers, the first one is called Isaias, then Simona ,then Luis miguel then , Tomasa and finally me. The men are also ranchers and one of the women is a nurse and the other is a housewife like my mother.

I studied kindergarten at a CONAFE school here in my community ,I remember that I was very intelligent but not very sociable. I don't remember having many friends.

I still studied Primary school in my community in a federal school, there I had my first best friend although we stopped talking about dating and I was still very intelligent until third grade when I lowered my grades.

In high school I was not very sociable, my studies were good but I was no longer so applied that let's say that it was still a CONAFE school in my community..

For pre-university school, I went out to study in a community in to study in a community in Pichucalco called San Isidro. Here I met my best Friends , I was very diligent taking first place in recognition. This was the best stage I have ever had since here I was very sociable and I learned to lose my temper.

I like the music electronic, rap, northern, ranchera and banda ,my favorite Singer right now is Alfredo Olivas .

I really like tacos, pizza, empanada, mole and panuchos in food and in desserts I am a fan of chocolate ice cream.

My favorite movies are comedy or romantic ones, I like them a lot Don't stain Frida, marry whoever can or three meters above the sky.

I hardly read books before but the one I'm Reading is called the Little Prince and it brings is a beautiful reflection that we must always believe in ourselves even if other people tell us that we can't.

My favorite sport is soccer, although I hardly practice it since when I was in high school I had an injury but I was good at good and defense.
I have two pets, they are little dogs, whose names are fluff and Wolf , they are still small and very cute.

I decided to study this career because I like it, all the theories that we will see draw my attention, and I would also like to help people who suffer from anxiety, stress and depression. I would like to help Young children and adults to feel better and to know how to deal with the traumas of your past.

Thank you
