**Nombre del profesor:** Teresita de Jesús Trejo Pérez

**Nombre de la Licenciatura:** Lic. Psicología

**Cuatrimestre:** Primer cuatrimestre

## IT'S NICE TO MEET YOU

My name is Gabriela Domínguez Arzate, I am 18 years old, I am Mexican and originally from the municipality of Ixtacomitan Chiapas, I was born in Ixtacomitan, I lived there 15 years and currently I have 3 years living in Pichucalco Chiapas, my mom is called Asuncion Arzate Baez and my dad Esteban Dominguez Castro, I have two brothers, my older sister is called Vianney and the youngest Erick.

I studied kindergarten at Rosario Castellanos Figueroa Kindergarten, the primary school at José María Morelos y Pavón, high school at Querido A. Moheno and later high school at Colegio de Bachilleres de Chiapas campus 56.

My favorite pastime is dancing any kind of genre, my favorite is folklore, I like to listen to music in my free time whether it's trap, romantic and a little reggaetón, my favorite food is mole and spaghetti, the movies I like the most are love movies or Disney movies, I don't have a favorite book because I hardly read, My favorite sport is dance because since I was very young I have liked to dance and I enjoy it too much, also one of the goals I have is to be a dance teacher.

My favorite color is black and blue, I like silence and order, in my house there is a pet, it is a dog named Toby he is about 2 years old.

The reason why I chose the career was for two reasons, first of all I must clarify that this career was my second choice since I had planned to study dance, I chose it because I like the career and I feel that I can be a great psychologist and because I would like to explore the feelings and thoughts of others

I must say that I have been surprised because it is very dynamic and entertaining, another reason why I am here is to show my parents the capabilities I can have, but above all to prove to myself that I have more capacity than I imagine.

What I expect from this career is to learn and have enough capacity to develop within this field, so that in a few years I can complete and be able to practice in the area I want.

Another of my goals is to be able to be independent and to be able to set up my own clinic, so I can help people who require some help and provide them with the support and experience that I will get with the passage of time and study.

I'm loving the race and that makes me enjoy it and it doesn't become so heavy, and I hope to be able to reach very well within this field, I know that it can be done if you put the interest and desire to improve yourself.

Even though what I wanted to study was dance, I am really enjoying this career and even though my work consumes a lot of my time, I am trying not to neglect my studies and I try to learn fast and learn new and useful things for my career.

This is a little bit about me, my tastes and why I want to finish the race.
