Parcial: I

Nombre de la materia: English

Nombre del profesor: Teresita de Jesús Trejo Pérez.

Nombre de licenciatura: Psicología.

Cuatrimestre: I

it's nice to meet you

Hello, my name is Samuel Rodríguez Hernández, I am Mexican, originally from Pichucalco Chiapas. I currently live in Pichucalco Chiapas Mexico in the Jorge Camacho neighborhood 18th street between 19th, my age is 17 years old.

My parents are Rodiver Rodríguez Ordoñez and María del Carmen Hernández Jiménez, my father is 57 years old and my mother is 46 years old. At the moment I still live with them, I have 4 siblings, 2 men and 2 women, the oldest is called Salomón Rodríguez Hernández, my sister is names is Guadalupe Rodríguez Hernández and the other is Gabriela Rodríguez Hernández and finally Rodiver Rodríguez Hernández.

Kindergarten, I honestly don't remember it was a long time ago, but primary school was at Carlos A. Vidal, Secondary school was at Carlos A. Vidal, where it was one of my best stages of my life because I made very good friends. The high school was on September 14, and the high school was also very nice. I am currently studying university at USD Lic. In psychology, I am just starting my degree, I have only been in it for 3 months but it is very interesting.

My musical tastes are variable, I like everything a little except reggaeton, but my favorite genres are pop, rock, pop rock and old corridos and electronica. I have almost no favorite food. I like to eat almost everything, but I like ground beef

empanadas the most. My favorite movie is Your Name, for me, a gem of animation, and lastly, my favorite book is El Diario del Chavo del 8.

I have two favorite sports, which are soccer and basketball, I love them both, but I'm only good at one, which is basketball, and in soccer, I'm a little bad, I'm not very good at it.

I don't have a pet, I had a rabbit, but it died.

I feel sincere that I never thought I would study psychology. Psychology was always the fourth option. My first options were law, gastronomy and teaching, but as fate would have it, I was not able to study any of those careers, so that's where I decided to study psychology. I liked the psychology career because it studies human behavior and I can also help many people with problems, as well as depression, family problems and other factors.

I also liked it because, according to me, with psychology I can help myself with my problems and control my emotions.

That would be all, thank you very much for reading my story, good morning or good night. THANK YOU
