IT`S NICE TO MEET YOU

Born in tuxtla Gutierrez and raised in jiquipilas, chiapas, I am Xhunaxhi Esmesralda Ahu Torres, a paasionate psychology student in my first semester of university. Currently, I reside in pichucalco, chiapas, aplace I consider my home.

I am the proud daughter of Arcelia Torres Cruz, and Marcos Alejandro Ahu Cruz, and the older sister of the charming 11- years- old Maylin Alejandra Ahu Torrres.

My academic journey began in jiquipilas, where I attended my first year of kindergarten, and continued in pichucalco, where I completed my kindergarten studies at La Leona vicario school.

My passion for learning led me to the 24 de february primary school, then to the Juan Sabines Gutierrez secondary school , and finally to the 14 de september preparatory school.

I am an avid reader of romantic literatura and a music en thusiast, whit chase atlantic being my favorite bandedy, and romance moviles. I am also a sports fanatic, especially, football, and volleyball.

Although I currently do not have pets, I dream of having an orage or black cat someday.

I chose to study Psychology because I am passionate about helping others feel good about themseves. Those who need it. My dream is to open my own office, creating a space where my patients feel comfortable and confident with themselves.

The career that initially had no intention of studying became my passion when I delved into the humanities. It was there that I discovered my love for psychology, which led me to decide on this degree.

My parents have been a great suppot in this dream that I am determined to Fulfill. My main interest is child psychology, but I am determined to clinical psychology. For now, I think I will lean Towards the latter option. I am Excited about this new stage and the future that awaits me, especially because I will be the first psychologist in my family.
