MY Story

Hi, I'm Rodiver Rodriguez Hernandez, I'm 21 years old, I'm from Mexico and I currently live in Pichucalco, Chiapas, in the Jorge Camacho neighborhood, on 18th Street, I was born in Pichucalco in the regional hospital, my parents are originally from Pichucalco Chiapas, my dad's name is Rodiver Rodriguez Ordoñez and he's 54 currently, my mom's name is Maria del Carmen Hernandez Jimenez, she's 51 years old. I have 4 siblings, 2 women and 2 men, my older brother is called Solomon, he is 30 years old and has 3 children, there follows my sister Guadalupe who is 27 years old, she has two children, my other sister is called Gabriela, she is 24 years old and finally my younger brother who is 18 years old.

I studied kindergarten at Josefina Ramos, which is located on the way to the cemetery, there are 3 years of my childhood where I spent many fun things, then I went to Carlos A. Vidal elementary school where I studied 6 years of my life where it was very difficult for me to adapt in the first 3 years and then the other 3 years I spent very well but Hera was somewhat antisocial so I didn't have many friends, When I finished elementary school I studied in high school at Carlos A. Vidal where it was very different because I became very social there in high school I met some of my great friends who were called Angel David and Wilbert where they were the 3 funniest years that can happen since with my friends I spent many good and fun moments, When I finished high school I separated from my friends since they went to different schools, I studied at the 14 de Septiembre high school there are also I studied 3 years, in high school I met new friends who also had very good times, also high school I became a little restless because with the classmates I had they were very bad just like me.

My tastes are many, an example is my favorite food which is elbow, my other taste is the sport of motorcycling, I also love sports and low displacement motorcycles which consists of seeing and studying the components of the motorcycle to know how good the motorcycle is, so you can also see the quality of the parts and the quality of the , To see its power and performance on the road, I currently have a Bajaj motorcycle from the pulsar NS 200 line which is a motorcycle that has 24 horsepower and a four-valve liquid-cooled engine.

Currently I don't have pets as I am very irresponsible to take care of one and I don't take care of them properly for that reason I don't have pets.

I am currently studying at university, but when I left high school I did not enter university directly since the pandemic was in that time I dedicated myself to work to have my own money, then when I wanted to study I no longer had the economic possibility to pay for university after 2 years I started working at Oxxo, When I entered Oxxo I spent a year deciding whether to study at university, when I decided to study I chose the career of psychology, I chose that career because I like the subjects that psychology has and I also chose the career because I liked the environment of the subject.
