Nombre del profesor: Teresita De Jesús Trejo Pérez

Nombre de la Licenciatura: Lic. Derecho

Cuatrimestre: 1^{er}

Fecha: 24 de septiembre del 2023

My Autobiography

Hello, my name is Fiorela Castellanos Chacon, I am currently 17 years old, in three months I will be 18, I am of Mexican nationality, I live in Pichucalco, Chiapas, I was born right here in the municipality, my parents' name is Josefina Chacon Arzate, my dad is Her name is Jesus del Carmen Castellanos Martinez, my mother is 48 years old, my father is 46 years old, I have a younger sister, she is currently 8 years old, she was born on September 15, 2015, she is a very pretty girl, I love playing with her I always try to keep her happy and safe, she is my other half, on weekends I usually take her to the park for a while so she can meet new friends, Leona Vicario went to kindergarten when she was 5 years old, she only studied the third year, it fits I would like to emphasize that I was a little nervous and anxious to meet my classmates and teachers. It was a new stage in my life. When I finished kindergarten, my mother enrolled me in the Pichucalco school. To be honest, when I entered school, I cried a lot since my classmates didn't let me know. They wanted to talk and they made me less, they didn't want me to play with them because of the economic level, I studied at that school for four years, then they took me out of there and enrolled me in Juan Ramos Tarazena primary school where I finished my last two years of primary school fifth and sixth, I made some incredible friends in elementary school, I had my best friends, we were a very close group, our teacher was totally fun, I graduated with my generation and from there we separated, I enrolled in Carlos A. Vidal High School, the first year was somewhat difficult, I didn't know anyone, and it was difficult for me to interact with my classmates. Over time, a classmate spoke to me and became my best friend. Then she met someone else and our friendship ended. The next two years were the better, I had more friends, I met new people, they loved me, I felt safe with them, I also made male friends which I never imagined and it is one of the best, when I was in my last year of high school, the pandemic arrived and we started having online classes, the group completely distanced themselves, we no longer saw each other and it was not like before, I finished my third year of high school online, unfortunately we did not have a photo taken or graduation since due to the pandemic it was not possible, Then I enrolled at COBACH campus 231 (Chiapas High School College) the first year of high school was still online, virtual

classes and the assignments had to be sent through a platform, the first year was easy even though I didn't know anyone. The teachers gave us confidence to open up more and participate and hand in assignments and so on. The pandemic happened and when I entered the second year of high school in person, I was very nervous, I didn't know anyone, my classmates, I only saw them on cameras, there were many of us. Students in my classroom, we were not very close at first, the group was divided into two parts, the men on one side and the women on the other, everyone had their own group of friends, I had one of three, my two best friends and I, we were very close, we supported each other, then my friends fought over my friendship and broke up, I couldn't choose one of the two, so one day I got together with one and another day with the other. Another, I didn't want to separate from them, but I couldn't force them to get together again, that's how it was during second and third year, graduation came and I graduated with my best friend Cristal, my other friend didn't talk to me during the graduation rehearsal and it wasn't strange at graduation either but I didn't do anything about it, I graduated with an average of 9.4, it didn't go that bad, then I was on vacation for three months, I graduated in June and between university in September, I am currently studying at UDS University I'm in my first semester and it's not that bad, I hope to continue with my career and really want to do it, my likes are: music, I listen to everything in general, but what I listen to the most are songs in English, I love listening. The deep meaning they have, they transmit a special feeling in me, I still listen to some trap in Spanish and reggaetón, my favorite food is stuffed breasts and traditional homemade mole, I really like romance, action, fiction movies, and especially horror movies, I will never get tired of watching them, I like vanilla romance books and a little dark romance, I like cliché and enemies to lovers, I like the sport of volleyball, the truth is I'm not good playing but I can improve, Currently I don't have pets but when I was little I had a dog called Doki, he was a very playful dog and I didn't like to play with him but we had to give him away because my mother got pregnant and he cried too young to take care of him, I chose a career in law because since I was a child it caught my attention, I like to support and defend people, regardless of the consequences, I don't stop doing something until I achieve it, generally speaking, a career in law is not easy but it is

not impossible either. I like challenges and I am willing to give everything in my profession.
