IT`S NICE TO MEET YOU

Hello, my name is Iris Lizbeth Surian Romero I was born on April 6th, 2004 in Ribera Laguna Abajo ,Ostuacan Chiapas,I live in the Nuevo Xochimilco, my parents are Mrs. María Esther Romero García and Mr. Eugenio Surian Balboa, I have brothers, the youngest 8 years old, is called Oseas he is studying fourth grade, I think he is my closest person, I feel the need to always be aware of him, he is a special child in every aspect,I also have a 14-year-old sister who is studying third year of high school, her name is María.

I have always studied in the place where I live in the town Nuevo Xochimilco, enter the "Rosaura Zapata Cano" kindergarten at 4 years of age I remember that my first day was a bit bitter, I remember my mother taking me, I remember exactly that I had always had the habit of making bangs on my forehead, and putting on those white socks combined with pink above the ankle with a slight bend, I remember in detail the day I entered through the doors of my first school full of fear and curiosity, After my graduation time came I was excited to wear that blue fluffy dress, and those silver slippers when I put it on I felt exactly like my favorite princess Cinderella, Kindergarten was a very pleasant stage.

the time came to go to primary school enter the primary "20 the November "I made new friends, things were new, each learning was new and sometimes I felt that it was difficult but I never liked receiving help because I felt that I should and could do it alone, I always got used to doing my schoolwork alone most of the time. I liked to play soccer with my friends during recess. After completing 6 years of primary school, I entered the secondary "Manuel Gutiérrez Nájera 476" It was my most rebellious stage, sometimes I'm not very interested in homework but I didn't have a bad grade but it's also my favorite, I met a person who is very special to me, she is my best friend Deysi, it was a friendship that emerged very quickly which to this day remains firm and is something that makes me very happy.

I had very good classmates, every day it was fun to be with them, I enjoyed every moment of having those friends, we were very close, I got along with everyone in the class but as usual each one had a group of friends to which they belonged, I think that in I actually belonged to two groups, the most intimate and close one was made up of 4 people, while in the other one we were friends but we didn't share secrets and things like that, the group was made up of 14 people including me.

But I also experienced bitter moments and some embarrassing ones, but remembering it is fun. Finally the day came that we would graduate from high school, we didn't have a graduation party, we opted not to do any of that, just the school saying goodbye to us.

The time came to enter high school, I was 15 years old when I entered the COBACH 203 Nuevo Xochimilco campus, I had two people closest to me at that time, my friend was called Perla and I was always with a best friend at that time, he was Miguel, he was a person whom I loved very much and now I have no contact with him but always wherever as for him, all I have to do is wish him the best.

The time we were at school was short, we did not even complete a year of arriving to classes, since in 2020 the virus called "coronavirus" was made known and our classes were canceled, according to it was only for a few days and so They added more days of online-only classes to us, so two months turned into almost two years.

In my last year I felt too much pressure because I was graduating and I saw that everyone was talking about it and everything they wanted to do, it's as if they were already clear about the steps they would take and on the other hand I felt like I didn't know what I really wanted and I I felt unfocused but then I understood that each person goes at their own pace.

At the end of December 2021 I met my boyfriend, but our relationship began on May 21, 2022

In July 2022 I graduated high school, it was a simple and intimate ceremony and I decided not to study for a year and went to Cárdenas to my aunt's house to work in her store.

I like music pop, country, classical, my favorite artists are Selena Gomez, Olivia Rodrigo, Taylor Swift, Shaw Mendes, Conan Gray, I firmly believe that their songs transmit real emotions and feelings through the people who listen to them, my favorite dish is spaghetti, my favorite movies are romance, tragic romance, I really like series inspired by period books, I like to read romantic novels.

I have a pet, it is a dog that my boyfriend gave me, her name is Laira, her fur is black, she is 6 months old and she is very playful.

I am currently studying law, I am in my first semester, I chose law because I think it has always caught my attention, I think it is a profession with good job prospects.

My parents were the ones who encouraged me to choose the career, so I decided to take the option into account.

I hope that this decision I make is the best for my future, I want to focus on that and that I achieve many more things that I want, I believe in myself and my ability to always improve and I hope to be a more mature, responsible and empathetic person.
