Licenciatura: Enfermería.

Materia: Ingles 1.

Actividad: it's nice to meet you

Docente: Teresita de Jesús Trejo Pérez.

1° Cuatrimestre.

24/sep/2023

Hello, I am Manuel Pintado, I am 20 years old and I am Mexican. I live in the state of Tabasco in a municipality called Tacotalpa, I was born in Villahermosa, Tabasco on January 4, 2003. My parents are called Mario and Evelia and I live with them, I also have two brothers; their names are Carlos and Karen.

At the age of 3 I studied kindergarten at the Agustin Melgar School and at the age of 6 I started primary school at the Francisco A. Lanz primary school.

At the age of 12, I studied at the Sor Juana Ines de la Cruz telesecundaria and finished at the age of 16, thus moving on to high school, studying at the Tabasco high school until the age of 19.

My tastes in music are varied; I really like to listen to all kinds of songs. The food I like the most is spaghetti and hamburgers; I like to try new foods that I have never tried.

The movies I like the most are Marvel movies and action and romance movies, I like to watch cartoons. I don't like reading books because they are too long and I am easy to get distracted, I prefer auditory books.

I really like training soccer, I play on 3 different teams in my city, I have games during the week and I also play on the weekends. Now I don't have time to train because of university and other activities but I used to do it every day of the week.

I have 3 dogs at home, 2 pugs and a husky, their names are Godzilla, Fiona and Blue, they are playful and very sleepy, I usually walk them at night since it is cooler for them.

I chose a career in nursing because I wanted something related to health sciences, plus I feel very empathetic when helping other people and offering them my help, it fits my personality. I would love to be in the emergency room one day and work there, I hope to finish my career with satisfaction and practice it soon with perseverance and dedication.
