NOMBRE DE LA MATERIA: INGLES I

1ER CUATRIMESTRE

Lugar y Fecha : Pichucalco, Chiapas; a 24 de Septiembre del 2023.

IT'S NICE TO MEET YOU

Hello, my name is Vanesa Rubí Sala Gómez, I live in Teapa Tabasco, I was born in Teapa Tabasco on April 29, 2005, my mother's name is Rubí Soledad Gómez Rincón and my father is Roberto Sala López, I have a sister named Esmeralda Sala Gómez and a brother called Roberto Sala Gómez. I get along better with my sister, even though she no longer lives with us.

I studied kindergarten near my home, I studied kindergarten at Montessori, I studied primary school at Tomas Garrido Canaval, secondary school at Adelor d Sala, and high school at Cobatab Plantel #9.

I am currently studying a bachelor's degree in nursing at the UDS in Pichucalco. The bachelor's degree in nursing was my second option since I wanted to study medicine, but it didn't fit and I had to take up nursing.

I like music of almost all types of genre, right now I don't know why I have been liking corridos and listening to nata.

I really like hamburgers, potato soufflé and spaghetti, I love food, sometimes I like to cook.

When it comes to movies, I like romance and horror action movies the most, I don't like them because they scare me a lot, I don't like reading books, they've never caught my attention.

I exercise weights five times a week, I like to exercise too much when I don't do it a day I feel without energy and I get in a bad mood.

I really like to travel, we always travel to Chetumal and I like Cancun a lot, I would like to see other places.

I really like animals, but big dogs make me cute, but I almost don't like them. Right now, I don't have pets because we don't have the space to have a big dog. I had a pitbull, but they gave it away due to lack of space.

In elementary school I had a chihuahua and he died of parvovirus :(, I want a hamster or a hedgehog but my parents right now don't want me to have pets because he will be alone most of the time and they don't want him to die or something like that.

I also like to spend time with my grandmother.

I also like to ride a motorcycle, this year or next I want to learn to ride a standard motorcycle.

I also like to drive a car, when I was learning I got the hang of it quickly, now my mom has me as her driver.

I like to go out. I can't stay locked up for so long because I get desperate and stressed very quickly. Children also stress me out a lot, especially when they are crying and disobedient.

Next year in May I will go to take an exam in Chetumal at the university and I hope it will be time to move with my uncles.

I have not drunk bottled soft drinks for 5 years, since I suffer from constipation, colitis and gastritis, 3 years ago I had appendix surgery, according to me it is because of being angry and eating chili but well my mother says that it is nothing more than eating chili.

I like thinking games, like chess and dominoes.

The truth is that I had not planned to study in Pichucalco, but my mother told me to study there so that I would not go blank to take the exam in Chetumal and already know several things and it would not be difficult for me, since in high school I did not take a chemist, biologist, in series, administrative economic grip because I also planned to study petroleum engineering, but I wanted to study in Chetumal and if I took that career I was not going to leave here in Teapa, so I took nursing.

I have more male friends than female friends. I have always gotten along better with men, they are less hypocritical than women.

And so this is my life, there is not much to tell....
