## Suggestions

every time I have a cough what I take is lemon with honey or something hot I always use home remedies

When I have a fever I put water or potato compresses on my forehead. What I don't do is bathe because they say it's bad.

Every time I have stomach pain I take a paracetamol as it relieves all types of pain.

When I get a headache I rub an egg with alcohol to get rid of the bad air.

Every time I have menstrual cramps I use water compresses on my stomach, eat some sweets and relax a little.
