

¡I introduce myself!

My name is Jany Vanessa, and my last name is Avendaño Hernandez. I am from Zamora Pico de Oro, but currently I came to study at the University of Comitan de Dominguez and I will live here for approximately 3 years. I study at the University of the Southeast, in the first semester, in degree in Veterinary Medicine and zootechnics.

The truth is that I am very comfortable with my career, all the subjects attract my attention, and what encourages me to continue is that I will be able to save the lives of many animals in the future, and one of those lives could be that of my little dog named "Lucky".

I currently live alone because my parents are in my town. My mother's name is Rosalva Hernandez Bautista and she is a housewife and merchant and my father's name is Antonio Avendaño Rodriguez, he is a farmer and rancher. I have an older sister, her name is Keiny Lizeth, she has a degree in business administration and has a master's degree in educational sciences, my maternal grandparents are from Las Guacamayas, My grandmother's name is Juana, my grandfather's name is Victor, and my paternal grandparents are from Veracruz, they have already died but were named Lidia and Antonio.

I really love makeup, I hope to soon be able to take a course to learn more about the little I know, my favorite colors are black and white, I don't have any favorite sport, I really like ranchera music, and one of my singers favorites are alfredo olivas and Junior h, but I still listen to other banda artists.

¡THANK YOU!
