My family is very extensive, but if I talk about my nuclear family we would start with my mom, her name is Jenny; my dad's name is Jorge.

I have four siblings, but the three oldest are half-siblings, their names are Alfredo, Andres and Jade, I only have one brother, he is from the same dad, his name is Jorge, he is the youngest.

To be honest, my day to day life is not interesting, I don't normally leave my house, but the activities I do are the most typical which is having breakfast, going to school from Monday to Thursday, arriving home I wash and then go down to eat, then I clean up again and start doing homework [if I have pending tasks] if I don't have them I fall asleep or watch TV, You can also do some crafts or just knit. When night comes, I fall asleep; That repeats itself daily [when I don't leave my house, which is often].

P. S., ask me out, please.

Jimena Miranda Valdez.
