DULCE LISBETH MEJIA
MORALES

MY DAILY ROUTINE

My family and I live in Chicomuselo Chiapas, on Monday my mother gets up at four in the morning to prepare breakfast and tidy up the house, she only takes care of the house, my father gets up to go to work at midnight the morning. , he has to take a bus to go to work at six in the morning, my sister wakes up at seven in the morning to go to her beauty classes, she takes a one-hour bus to get to her school, I I get up at seven in the morning to get ready and go out to take a taxi to get to the university on time. My father comes home at four in the afternoon, rests for a while and then we all have lunch together. My sister arrives. He comes home at two in the afternoon and helps my mother prepare lunch. I leave the university at two in the afternoon so it takes me half an hour longer to get to my room. At three in the afternoon I have my food. prepared and they always call me by phone so we can eat together despite the distance.
