*Parcial: I*

*Nombre de la Materia: Inglés I*

*Nombre del profesor: Rafael Iván Guillen Alcalá*

*Nombre de la Licenciatura: Medicina Veterinaria y zootecnia*

*Cuatrimestre: I*

*Lugar y Fecha de elaboración:*

*Comitán de Domínguez a 24 de septiembre de 2023*

My name is José Rodolfo Escobar Pérez, I am originally from Chicomuselo Chiapas, I was born there but since I was 3 years old, my mother brought me here since our family came to live here in Comitán, I have currently 20 years old, since I was little I have liked to work and since I was 10 years old I have worked whatever I can, I started my primary and secondary school with a very good average since my grades were very good, I was on the honor roll 3 times but in high school I did.

I started to drop in grades and more at the end of the year when the pandemic happened, I studied at Comitán High School, I graduated with the specialty of mathematical physicists, but after high school I had 2 years off and in those years I started working, I had plenty of time to think about what to do if I studied or worked and I was already determined to always work but then I got a study opportunity in Las Margaritas Chiapas, and I tried to go to classes induction but for reasons of time and expenses I decided to decline and so I stopped going that just recently two months, and later they encouraged me to study the same degree but here in Comitán, I thought about it too much because of the expense involved in being in a paid school but after quite a while time because I decided that I was going to take it. Currently, I work in the afternoons as a delivery driver, it is a little complicated for me because due to time issues and study or homework issues.

Well, it does get a little complicated for me because I study from 8 to 2 and work from 4 to 11, and then I have to do homework. But other than that everything is fine, and I'm doing very well, and well, I'm taking it, my medical career. I quite like veterinary medicine, I have always liked it, I have a dog and a cat, they are very playful and get along very well! Since they grew up they got used to it, since they slept together, the cat always went under the table, while the dog always hides between the garden and the garage, currently I am very happy with what I do and I hope everything come out perfect.
