On Saturdays, I start my day by getting up. It's a little difficult for me to get up, but I have to do it to start my day. Before going out, I have to have breakfast at home. Then I start looking for things for the ranch, such as medicines, liquids for the mountain., serum, vitamins, etc. I'm all over Comitán checking prices and where it's best to be able to take it. Then I have to go to the bank to get money from the ATM to be able to pay the ranch hands and managers. Once I get the money I go to the ranch and I'm on the road listening. music to pass the time when I get to the ranch I go with the managers and they invite me to eat every time I arrive that's why I no longer feel like eating in Comitán hahaha I check with the managers and I pay them and I leave them the things they take care of and I agree with them to see what is done in the week. Then I go to Comitán to the office to be able to account for the machines and gravel trips and I make their payment for the week to the drivers, they store the trucks and machines and I'm going to get something for dinner and go home to rest a little. I take a bath so I can sleep fresh and I start playing Xbox for a while when I get sleepy or I get bored and then I get ready to sleep.
