## = Personal blog =

Hello friends, Welcome to my personal blog, my name is Francisco Manuel Gómez Guillen, I was born on October 4, 2005 in Comitán de Domínguez Chiapas, I am currently 17 years old and right now I am studying my university at the UDS school (Universities of the Southeast) The degree of veterinary zootechnician, I am a graduate of CBTIS 108 here in Comitán With the profile of physicistmathematician.

My family It is made up of 6 people taking me into account, thank God we are together, of children I am the only male, From an early age I started working and on my dad's poultry farm and ranch, thanks to that I feel that I am a person with a slightly more mature mentality than the people of my generation, I grew up with animals and everything I have spent with them in my life, that's why I also chose this beautiful career from my point of view, I know it is heavy but this is my taste, thank you very much for your attention and here ended my blog.
