Introduce myself

Hello, my name is Hilary Guillén, I am 18 years old, I was born in Tuxtla Gutiérrez, Chiapas. I am currently studying in comítan, so I have to be renting, but all my life I have been living in San Vicente la mesilla, municipality of Tzimol, Chiapas. I am studying at the University of the Southeast (UDS) in the degree of nutrition, I am in my first semester and I am still going to start my fourth week so I still am not used to living in a comítan, for me it is very difficult to adapt to living in a new place being with people I don't know. I consider myself a very antisocial person and I would like to be able to get along with all my colleagues. I have a teacher that I really like. The university is in front of the main street that leads to my community. I hope you liked the blog. see you soon.
