Hi, my name is Alexa, i´m seventeen years old. I´m from Comitán. I am a student, I study nutricion in UDS, my favorite subject is introduction to nutrition and I hate chemistry.

I love play videogames and volleyball, my favorite color is black and pink, my favorite music genre is techno and reggaetton, i love them. I listen techno every day in my house, when I do my homework and I would love to go a rave or a tomorroland, it´s my dream.
