

HOJA DE PRESENTACION

UNIVERSIDAD: UDS

NOMBRE DE LA CARRERA: MEDICO VETERINARIO Y ZOOTECNIA

CUATRIMESTRE: 2DO

ASIGNATURA:INGLES

NOMBRE DEL ALUMNO: JOSE JULIAN HERNANDEZ SOLORIO

NOMBRE DEL ASESOR: ENRIQUE EDUARDO ARREOLA JIMENEZ

ACTIVIDAD: Mapa conceptual del tema: "Endangered fauna

UNIDAD : IV

FECHA:05/04/2024

ENDANGERED FAUNA

THE THREAT OF EXTINCTION

There are many species of animals in the world, and even in our own country, that are in danger of extinction. This means that it is very possible that they will disappear

TWO SPECIES THAT MAY GO EXTINCT IN THE 2ND CENTURY.

DIFFERENT WAYS TO INTERVENE TO SAVE A SPECIES

There are many species of animals in the world, and even in our own country, that are in danger of extinction. This means that they are very likely to disappear. In some cases the danger is extremely imminent because so few animals remain that it is practically impossible for them to survive as a species.

Unfortunately, the list of endangered species in the world is very long. But here I will show you the following two that are in danger of extinction

PANDA

The number of pandas in the world is approximately 2,000, a figure that continues to rise.

rhinoceros

2,000 pounds) still living in the world. They maintain the diversity of African grasslands and forests on which many other species depend

DIFFERENT WAYS TO INTERVENE TO SAVE A SPECIES

protect the ecosystem in which it is located

Species in danger of extinction live.

Breed the animal in captivity
