# "Unusual homes"

## "Stone House"

It is literally a "Stone House". This construction was made with four large rocks, which give shape to a rustic building that is located in a picturesque town in the Fafe Mountains, Portugal. It is equipped with all the comforts of an ordinary home.

## "the transparent house"

Sou Fujimoto designed the Transparent House, which was built in Tokyo, Japan. The 914 square meter structure of this home allows for a large amount of light to enter. However, its various rooms do not have a shred of privacy.

## "The Inverted House"

It was built in Symbark, Poland. The Inverted House or The Upside Down House, was created by Daniel Czapiewski to illustrate the communist era and 'paint' in an original way the changes that occurred today.

## "The steel house"

In the state of Texas, USA, is the house of Acero. The person responsible for this creation was the architect and sculptor Robert Bruno, who took 34 years to build this place, and it gives the impression of being a giant pig, weighing 110 tons of steel. The architect only lived for 8 months after finishing it, since death overtook him.

## "The Shoe House"

In Hellam, a municipality in Pennsylvania, United States, a curious shoe-shaped property can be seen. Equipped with 3 bedrooms, two bathrooms, a kitchen and a living room for the local shoe magnate, Mahlon Haines.
