MY DREAM HOME

My dream home is a house in the city.

I would like it to be in the city of Los Angeles and to be able to live there.

On average it has 3 bedrooms and a bathroom, including the living room, kitchen, dining room, laundry room, study, garage and garden.

What there should be in each of the rooms is a bed, a bureau, a lamp, a mirror and a closet.

Generally the house has a good view and is on the edge of the street.

There are three windows, a glass door with wooden edges including the garage door, there are curtains on each of the windows, there is a garden, there are three floors, there are trees and there is a sidewalk.

I always dreamed of living in an immensely large house but over time I realized that I could survive in a small and cozy house to be happy. I hope that one day I can fulfill that great dream and strive to make it come true.
