The moon landing

In 1969, the world witnessed one of the most significant events in history: the Apollo 11 moon landing. Neil Armstrong and Buzz Aldrin landed on the moon while Michael Collins was orbiting above.

While Armstrong was stepping onto the lunar surface, he said, "That's one small step for man, one giant leap for mankind." Meanwhile, millions of people around the world were watching the broadcast live.

Although there were many challenges, NASA managed to successfully complete the mission.

As soon as the astronauts returned to Earth, they were celebrated as heroes. Because of this event, human space exploration entered a new era.
