A DAY IN THE COUNTRYSIDE WITH DAD

On a Saturday afternoon my dad didn't work and he came up with the idea of going to the field to spend a day together my dad took his camera to take souvenir photos we got in front of the river dad put the camera with a time of 5 seconds before the photo my dad ran to where I was but before arriving he stumbled on a stone and fell into the water and the camera took the moment when he fell silent on the river.
