# HOSPITAL JOBS AND PERSONNEL

## CHARGE NURSE/SISTER

This is the person who provides direct care, coordinates, supervises interventions and facilitates the patient's integration with the hospital environment.

## CLEANER

Responsible for keeping patient rooms clean and disinfected to ensure hygiene.

## CONSULTANT

Is the person who analyzes, identifies and interprets the client's needs in the management of health information, and proposes appropriate health solutions.

## PARAMEDIC

This is the person who gives emergency treatment to accident victims and then transports them to the hospital by ambulance.

## PORTER

This is the person in charge of monitoring the installation. Be aware of who enters and who leaves.

## RECEPTIONIST

Is the person provides assistance in performing and supporting communication, documentation and appointment organization functions. For example: receive visitors or patients, confirm appointments, etc.

## SURGEON

Performs operations on patients. It usually specializes in a particular type of surgery.

## TRIAGE NURSE

Responsible for ensuring that the most urgent cases are treated by the doctor as quickly as possible.

## SCRUB NURSE

This is the person who helps the surgeon during operations. For example, preparing the material and the patient.
