Introduce ourselves

Communicate to the Patient what you are, what you do and who the members of your team are, also recognize the Patient by name and know what they want to be called.

Show interest

Pay attention and repeat to the Patient what he or she has said to ensure understanding and provide both verbal and non-verbal feedback.

Thank you for help

Involve family members present recognizing their important role in the Patient's self-care.

Create trust be close and use appropriate language with the Patient, help them feel comfortable and free to express themselves.

Monitor with

Excessive anticipation of information we give you if we want you to remember some information.
