Coquette Fashion

This super feminine trend quickly took over Intenert. Coquette fashion is clearly the combination of balletcore and girlycore with trends from past centuries.

The coquette trend has become popular in fashion from the end of 2023 until now³⁴⁵. It is characterized by its sweet, feminine and romantic aesthetics³. Historically, the coquette fashion can be observed since the seventeenth century².

It is characterized by the fact that women who use this fashion wear romantic and very feminine pieces such as delicate dresses, stockings, ruffles, flower and heart prints, always using pastel tones and mainly pink bows. This fashion seeks to transmit to women a flirty woman who is also independent
