>> ALL ABOUT ME <<

Hello, my name is Maria Adriana Pérez Espinosa. I'm eighteen years old, I was born on the twenty-fourth of January in the city of Comitán.

My parents are Álvaro and MariCruz, I also have a sister, her name is Carolina. One of the stages that I liked the most was the upper middle level, I had great friends.

They live far from my house but I always remember them. I enjoy speaking in public a lot and even more so when I declaim, I really love to do it; In my last vacation

I took a course to learn how to do nails with acrylics and without a doubt it is one of the things that I thank my parents the most, it has helped me a lot to be more independent. I like basketball a lot although I hardly practice it; my favorite food is spaghetti and lentils. I live a very quiet community still full of traditions and customs and with much love I can say that

I am a practicing Catholic. I really like school although my goal was to study dentistry. It relaxes me to be in places where there are rivers and a lot of nature with cold climates.

There is a lot to say about me but this is the most relevant thing about my personality.
