

WHAT IS HAPPENING?

TEACHER... RAFAEL IVAN GUILLEN ALCALA
STUDENT... MARIA ADRIANA PEREZ ESPINOSA

They are my best friends during high school, I couldn't forget that important date, they were taking our photos for our graduation.

All my friends were very presentable for the occasion, they summoned us at seven o'clock although the photographers arrived almost at ten o'clock, We weren't doing it during the wait and it was getting kind of boring; Citlali, one of my friends, was wearing a very nice blue dress, it was long and looked very good, she accompanied it with white high heels. Fernando, his cousin and another of my friends was wearing a black shirt and light brown pants, we almost didn't see him dressed like that and it looks very good on him; He is very impatient and was getting desperate because it was late and he hadn't had breakfast, he is a tall and dark boy, he is very intelligent and he always made me laugh and from time to time get angry.

We weren't playing because they didn't allow it, it was already 12 o'clock and I still hadn't finished, I wasn't wearing the toga they gave me because it was too short. I was wearing a red dress, with heels, they are very comfortable and I still wear them.

The place of the photo taking was very large and beautiful, full of flowers, it is a very well maintained hacienda its façade is blue, that day they were preparing breakfasts for an event that they would have at four o'clock.

It has been one of the most satisfying and beautiful experiences to be able to share them with my friends, finishing the photo taking I returned home very tired but happy
