Nombre del profesor: Rafael Iván Guillen Alcalá

Nombre de la materia: Ingles 1

Cuatrimestre: 1

Parcial: 1

Hi, my name is Lesli Monserrat Sánchez Coronado, I am 19 years old and I am from Velasco Suarez, Tzimol, Chiapas.

I really like spending time with my pets I have five dogs, three cats and a parrot I have lived with them since I was little, my family doesn't like it very much, but they accept them only because they stole a lot here where I live.

I have

two other dogs that belonged to the neighbor but I took them out of their house and now they are in the street but they come to the house because I feed them and when they see me they get very happy.

That's why I want to study veterinary medicine because I want to help and give a home to every animal that doesn't have one.

I live with my uncles, they are the ones who help me with my studies and also later that I have a more stable job I will help them. I have been with them since I was very young and I don't know my father and my mother died two years ago.
