ALL ABOUT ME

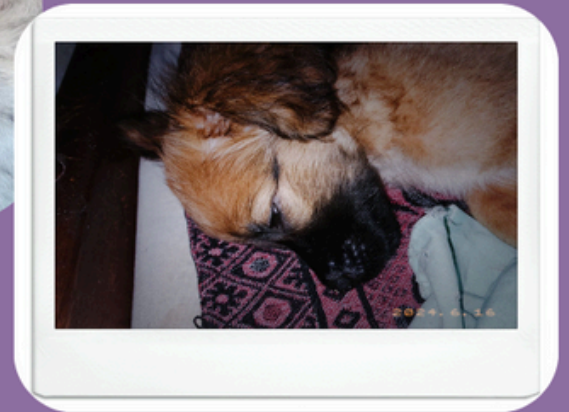

Hello, my name is Yahayra de la Torre but I like to be called Yay or Yaya, I am 18 years old and I am from Venustiano Carranza, Chiapas.

I consider myself a person with a lot of energy, with a lot of joy, I like the people around me to feel safe with me, I try to give them my support. I am very sociable and that is why I have many friends but I never like the friendship with a girl named Cindy who I met in high school, she was a very pretty and kind girl, fun but a very good person, I still consider her my sister. I haven't seen her in over 5 years but I love her very much.

I am currently studying veterinary medicine and personally I think it is a very beautiful profession, since it gives you the opportunity to help those beings with whom we cannot communicate with words.

I really enjoy spending time with my pets, two dogs, one of the breed "Chihuahua" and the other is a "Maltese", they are very playful and affectionate.

- I am excited just to imagine that one day I can achieve that goal of being a veterinarian, since it is a dream that I have had for a long time and that was born due to the loss of my best friend, a 3-month-old puppy and although I spent very little time with He won my heart, he was a bloodhound. He liked to play with anything and with his toys but he left them lying all over the garden, he even hid them under the table, but unfortunately, he passed away due to a disease that is difficult to control, so now I know that my goal It is helping those who have no voice.

Well, this was just a small text about me and what I like most, I hope what I wrote has fulfilled its objective.
