## **ALL ABOUT ME**

Hello! My name is Julian. I am a student, and I enjoy spending time with my family. One of my favorite activities is working with my dad. He has a workshop, and I love helping him with different projects. It is always exciting to learn new skills and create something useful.

I also like to help my mom in her office. She is very organized, and I assist her with various tasks. Her office is in our house, so it is convenient for me to go there and lend a hand whenever she needs it.

My house is near a big park, and I often go there to relax after a busy day. I have a small room in the house where I keep all my books and study materials. It is my favorite place to read and do my homework.

I am very grateful for my family and the time we spend together. Helping my parents makes me feel responsible and happy.
