Unusual names

Tapachula, Chiapas Jueves 23 de Enero del 2025.

Takasugi - a teahouse:

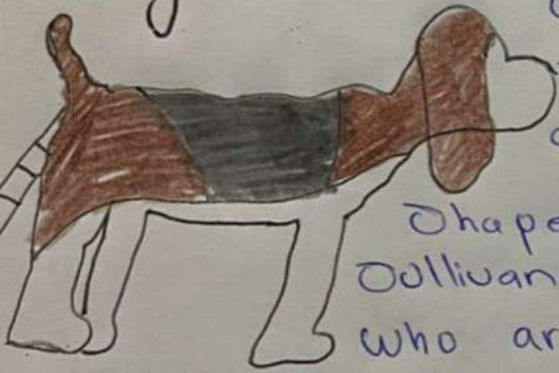

Nagora prefecture, Japan this unique tree house. Designed by Japanese architect Teronobu Fujimari, inside the structure is a full, functioning tea house.

Where must climb a three story staircase and remove their shoes in order to enter.

Its name literally means "tea house too high"

Dog Bark Inn: is a dog-shaped located in Cottonwood, Idaho, United States.

The house is nine meters tall and also has a statue called "Toby"

shaped like dog. Owners Dennis Sullivan and Francis Calvin, two artists who are specialist in wood sculpture

The hornd-shaped house has two rooms, one in the belly, and the other in the head, the bathroom is located in the books

Kubowoningen
Cube
houses.

Are a set of innovative houses designed by architect Piet Blom in 1984 and built on overhanging street in Rotterdam, the Netherlands. Blom rotated the conventional cube of houses by 45° and placed it on hexagonal-shaped pillars. There are 32 cubes in total

next to the other. On the ground floor is the entrance to the house, in the first, there is the hall, the kitchen and the living room, on the second, there is a bedroom and a bathroom the top floor is sometimes used.

penedo house: In the north of Portugal, on the Serra de Lata there is a curious house that is known as the "house penedo" and

is known as the "house penedo" and comprises with its structure composed of four huge granite stones. Being

49 years ago, it is necessarily located

in a remote area and had all the necessary amenities. Interior have detected: A living room, a kitchen, 3 bedrooms, a bathroom, a landing made of wooden logs.
