

# Synoptic table Unit II, English

Carlos Rodriguez Dania Sofia.

Universidad del Surate.

Ing. Arcola Jimenez Eduardo  
Enrique.

Tapachula, Chiapas a 13 de febrero  
del 2025.

# "Synoptic Chart Jobs"

## Nutrition key concepts:

1. Healthy eating
2. Metabolism
3. Vitamins and minerals
4. Supplementation
5. Macronutrients
6. Hydration
7. Food safety
8. Specialized diets.

## Work Areas

1. Hospitals
2. Animal clinics
3. Food industry
4. Restaurants
5. ~~...~~
6. Sport centers
7. Teaching
8. Scientific research

## Specialties

1. Clinic nutrition
2. Pediatric nutrition
3. Oncology
4. Sport N.
5. Geriatrics
6. Food technology
7. Community N.
8. Food labelling management

## Veterinary Medicine Key Concepts

1. Animal health: prevention, diagnosis, and treatment
2. Disease prevention: strategies such as vaccines and health.
3. Diagnosis and treatment: use of clinical exams and tests to detect and treat diseases.
4. Zoonosis: Diseases transmitted between animals and humans.

8. Veterinary ethics: Moral values and principles in professional.

## Work areas:

1. Veterinary clinics: medical care for pets.
2. Zoo: health supervision.
3. Food industry: sanitary control of animal.
4. Scientific research: Development of treatments.
5. Veterinary hospitals: specialized and emergency care for animals.
6. Livestock and animal production: Health supervision of farm animals.
7. Teaching and education: University and educational institution teaching.
8. Animal welfare organizations: protection and rescue of animals in risk situations.

## Specialties:

1. Veterinary surgery: procedures for animals
2. Internal medicine: diagnostic, therapeutic, preventive, epidemiology
3. Veterinary oncology: diagnosis, treatment, prognosis
4. Veterinary cardiology: heart diseases.
5. Veterinary radiology: diagnostic, therapeutic, preventive, epidemiology
6. Veterinary infectious diseases: control
7. Sport medicine: care for animals
8. Veterinary epidemiology: study and control

## Nursing key concepts:

1. Patient care.
2. Medication administration.
3. Monitoring vital signs.
4. Assistance in surgeries
5. Emergency care.
6. Patient hygiene.
7. Health education
8. Ethics and bioethics.

## Work Areas

1. Outpatient clinics
2. Rehabilitation centers.
3. Home healthcare
4. Intensive care units.
5. Maternity and pediatrics.
6. Nursing research.
7. Geriatric nursing
8. Occupational health.

## Specialties:

1. Pediatric nursing
2. Geriatric nursing
3. Surgical nursing
4. Emergency nursing
5. Mental health nursing
6. Oncology nursing
7. Community nursing
8. Anesthesiology nursing.
