Research, unit 1 "Unusual homes"

Name:

Flores cruz cristobal

Degree:

Medicina veterinari + zootecnia

Teacher:

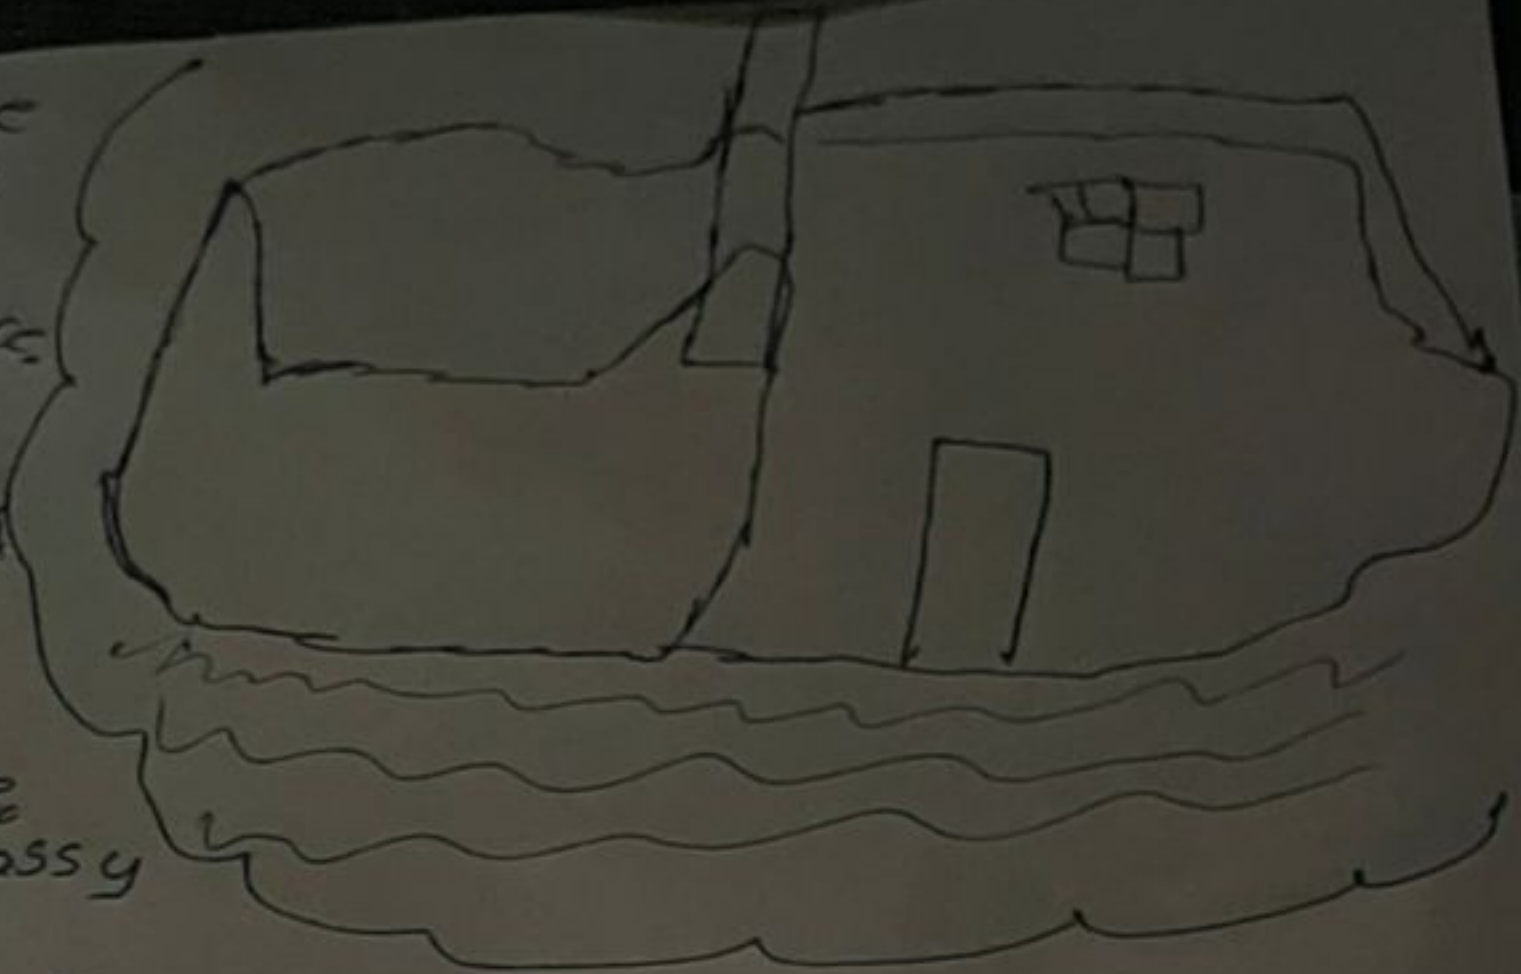

Anreola Jimenez eduardo enrique

Matter:

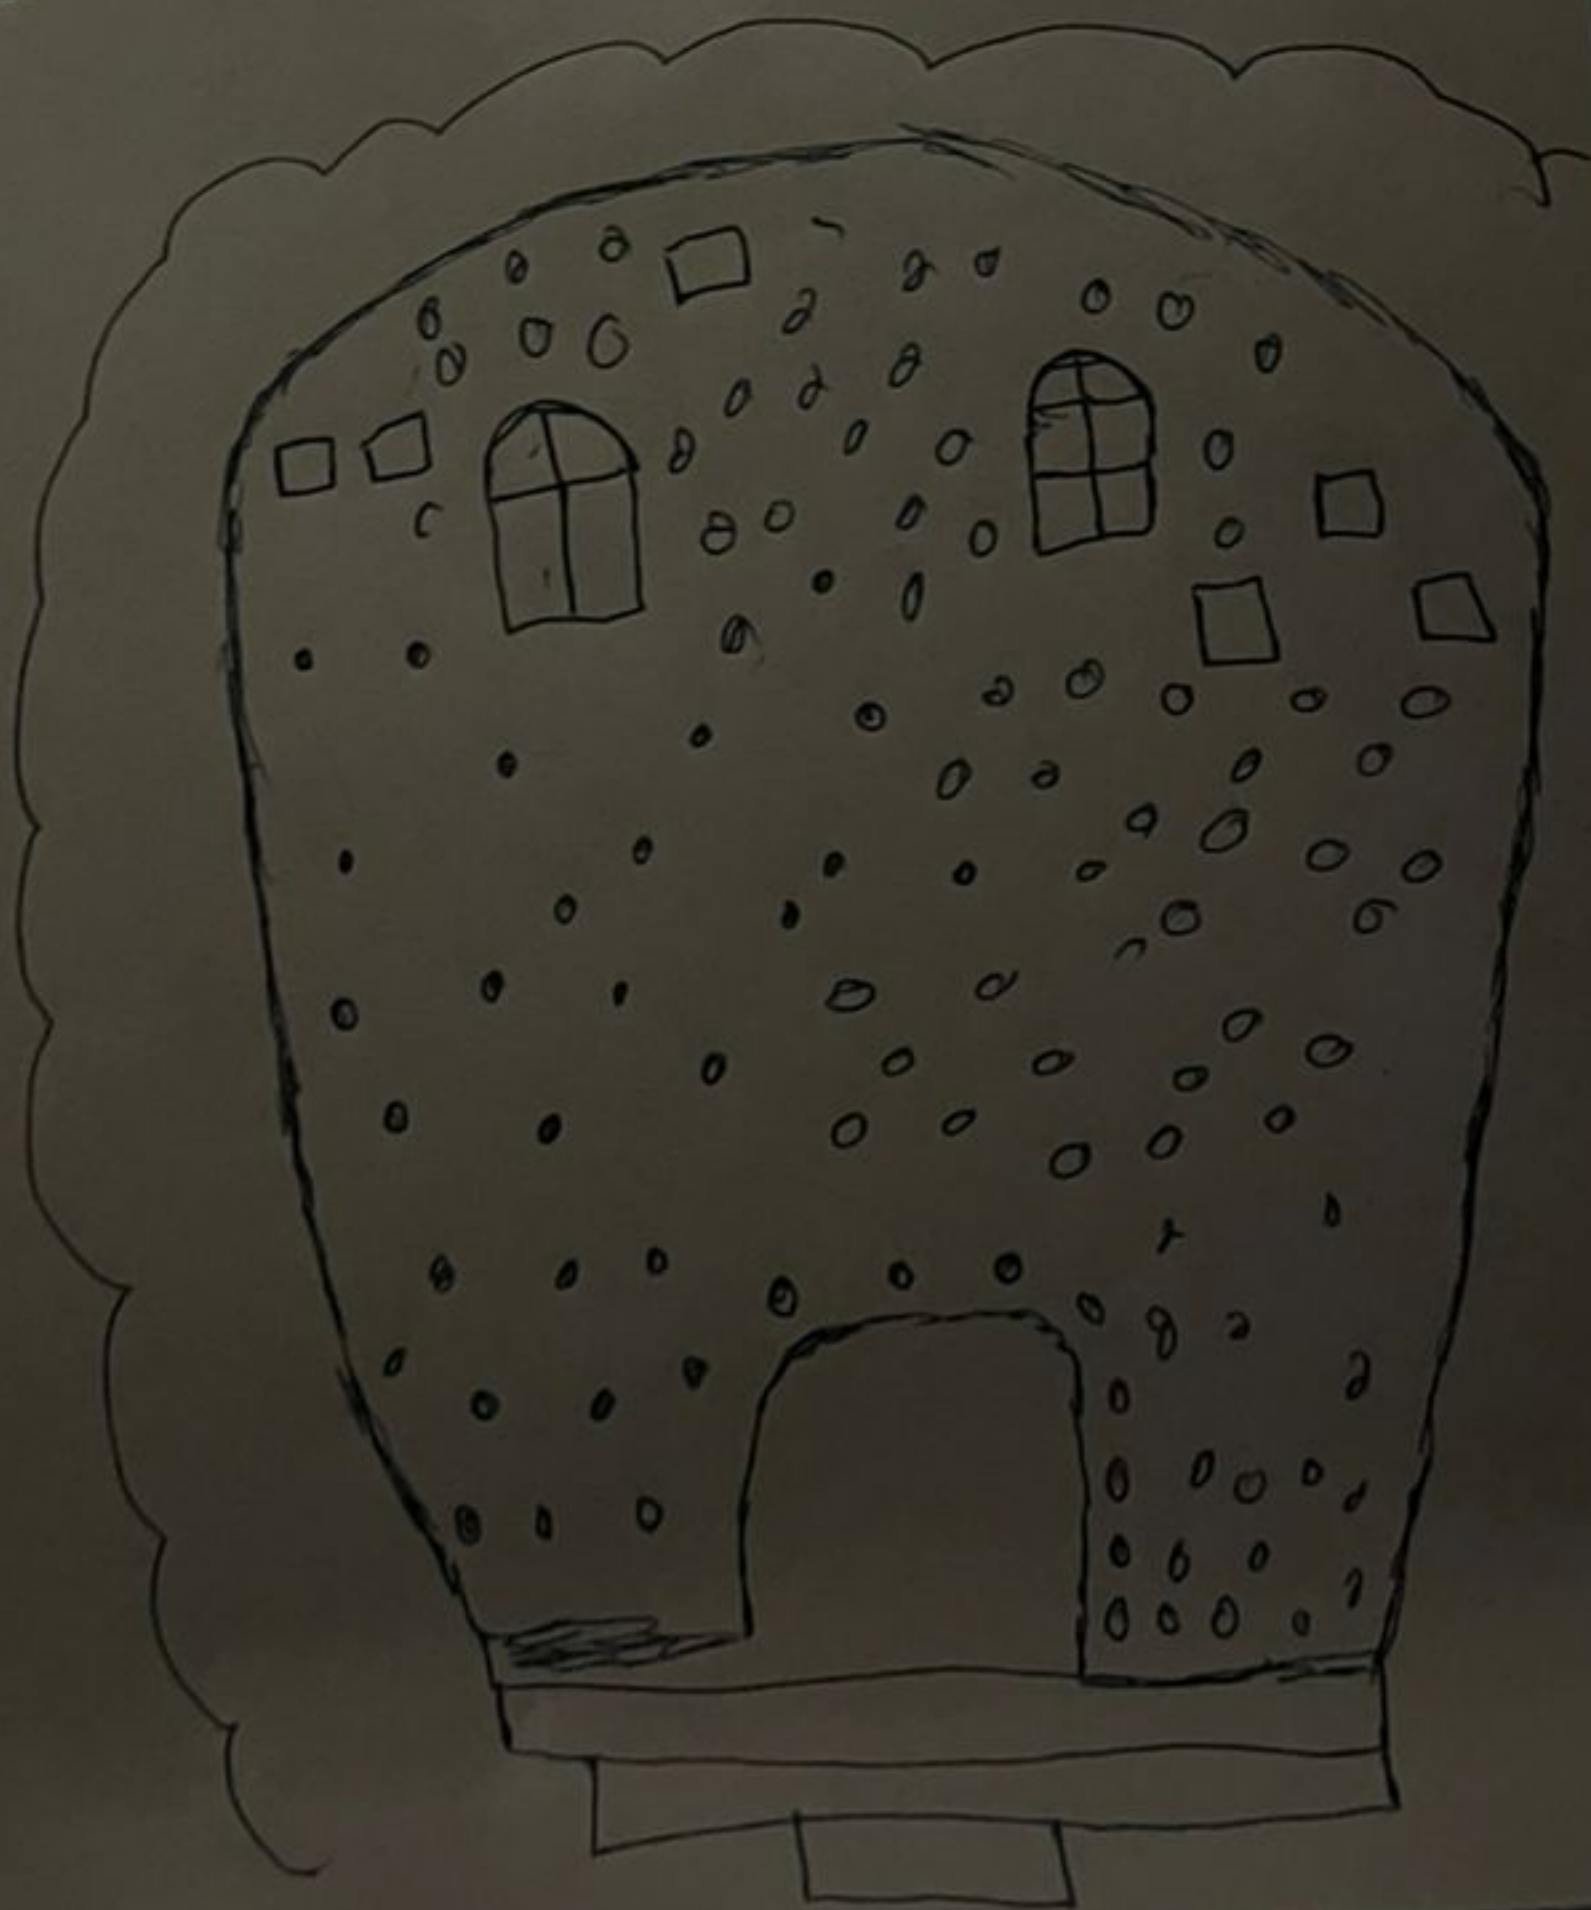

inglish 2.

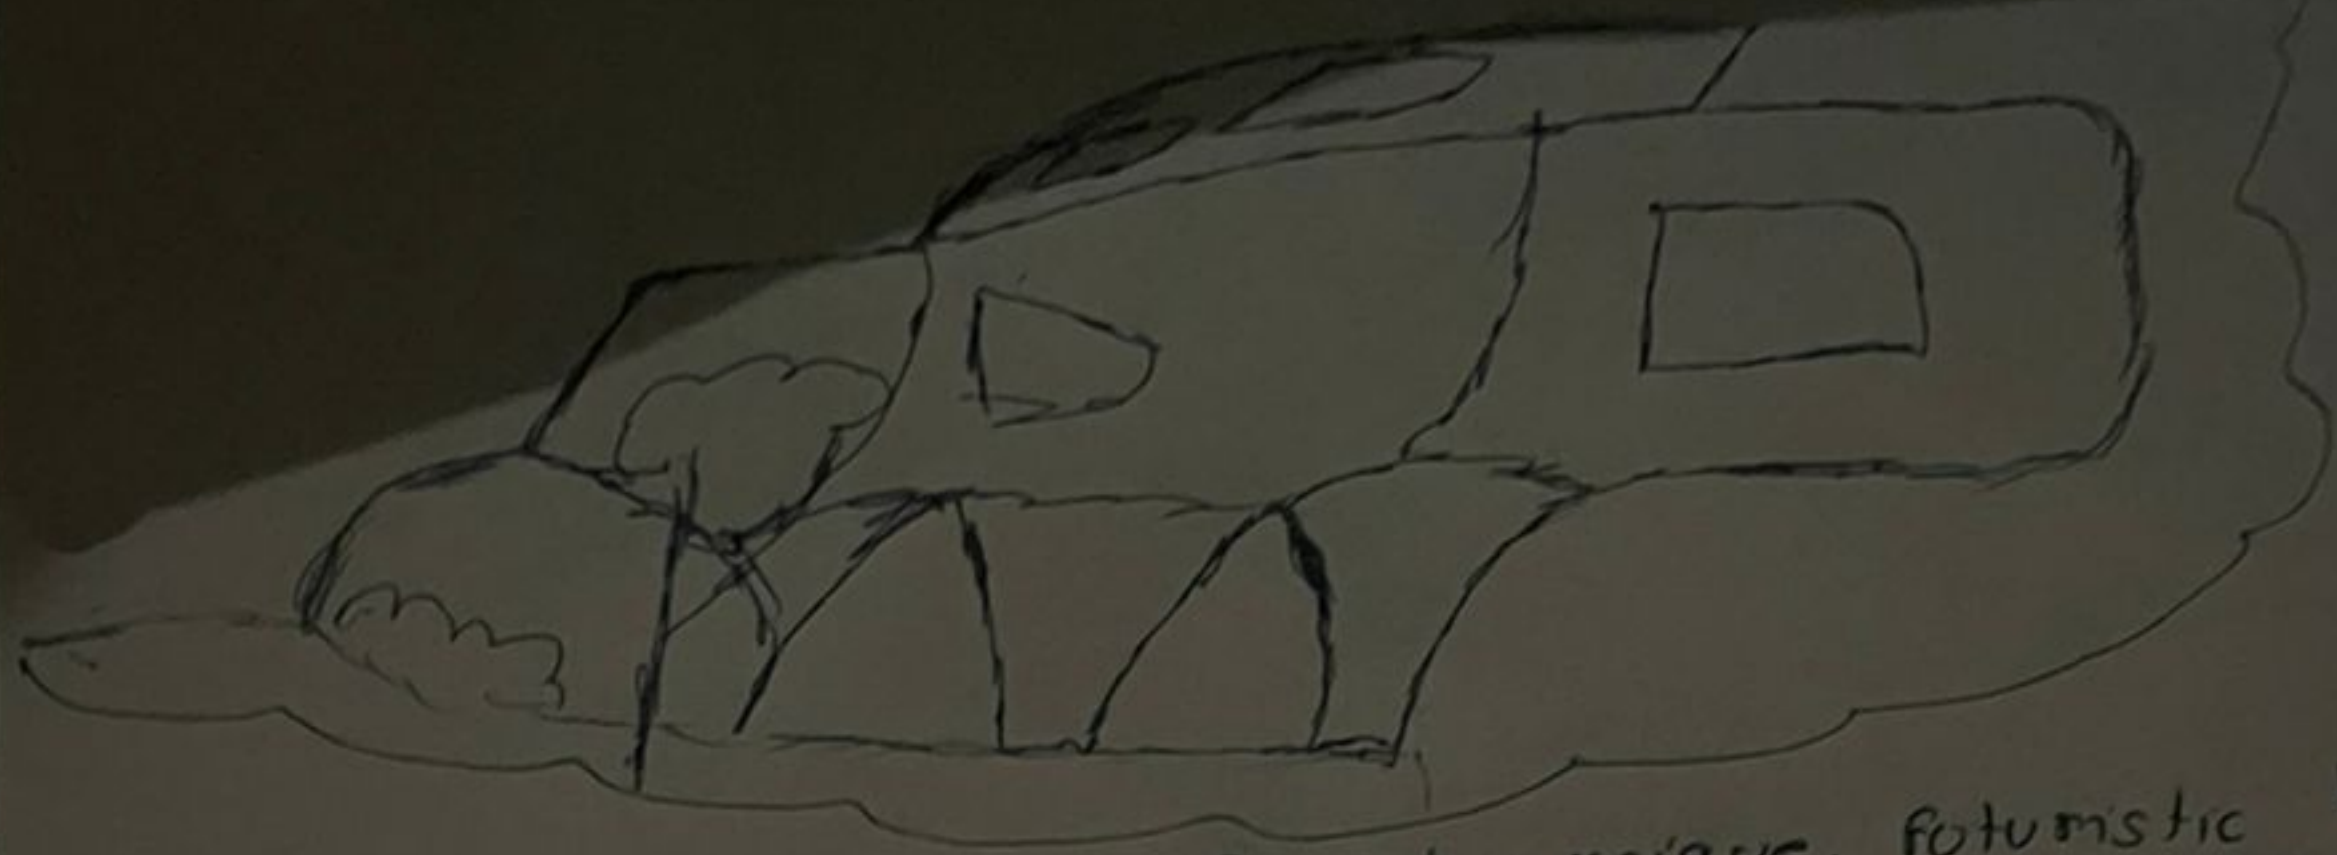

Tapachula, Chiapas, January 25, 2025

This is a small, rustic house
built into a massive rock
formation, giving it a
natural and rugged appearance.
The structure blends
seamlessly with the rock
with its walls and roof
seemingly stone. It has
a simple rectangular door
on the front and a space
The house is set in a grassy
field with a picturesque
view of the sea, which is
house straight out a fantasy
or prehistoric setting.

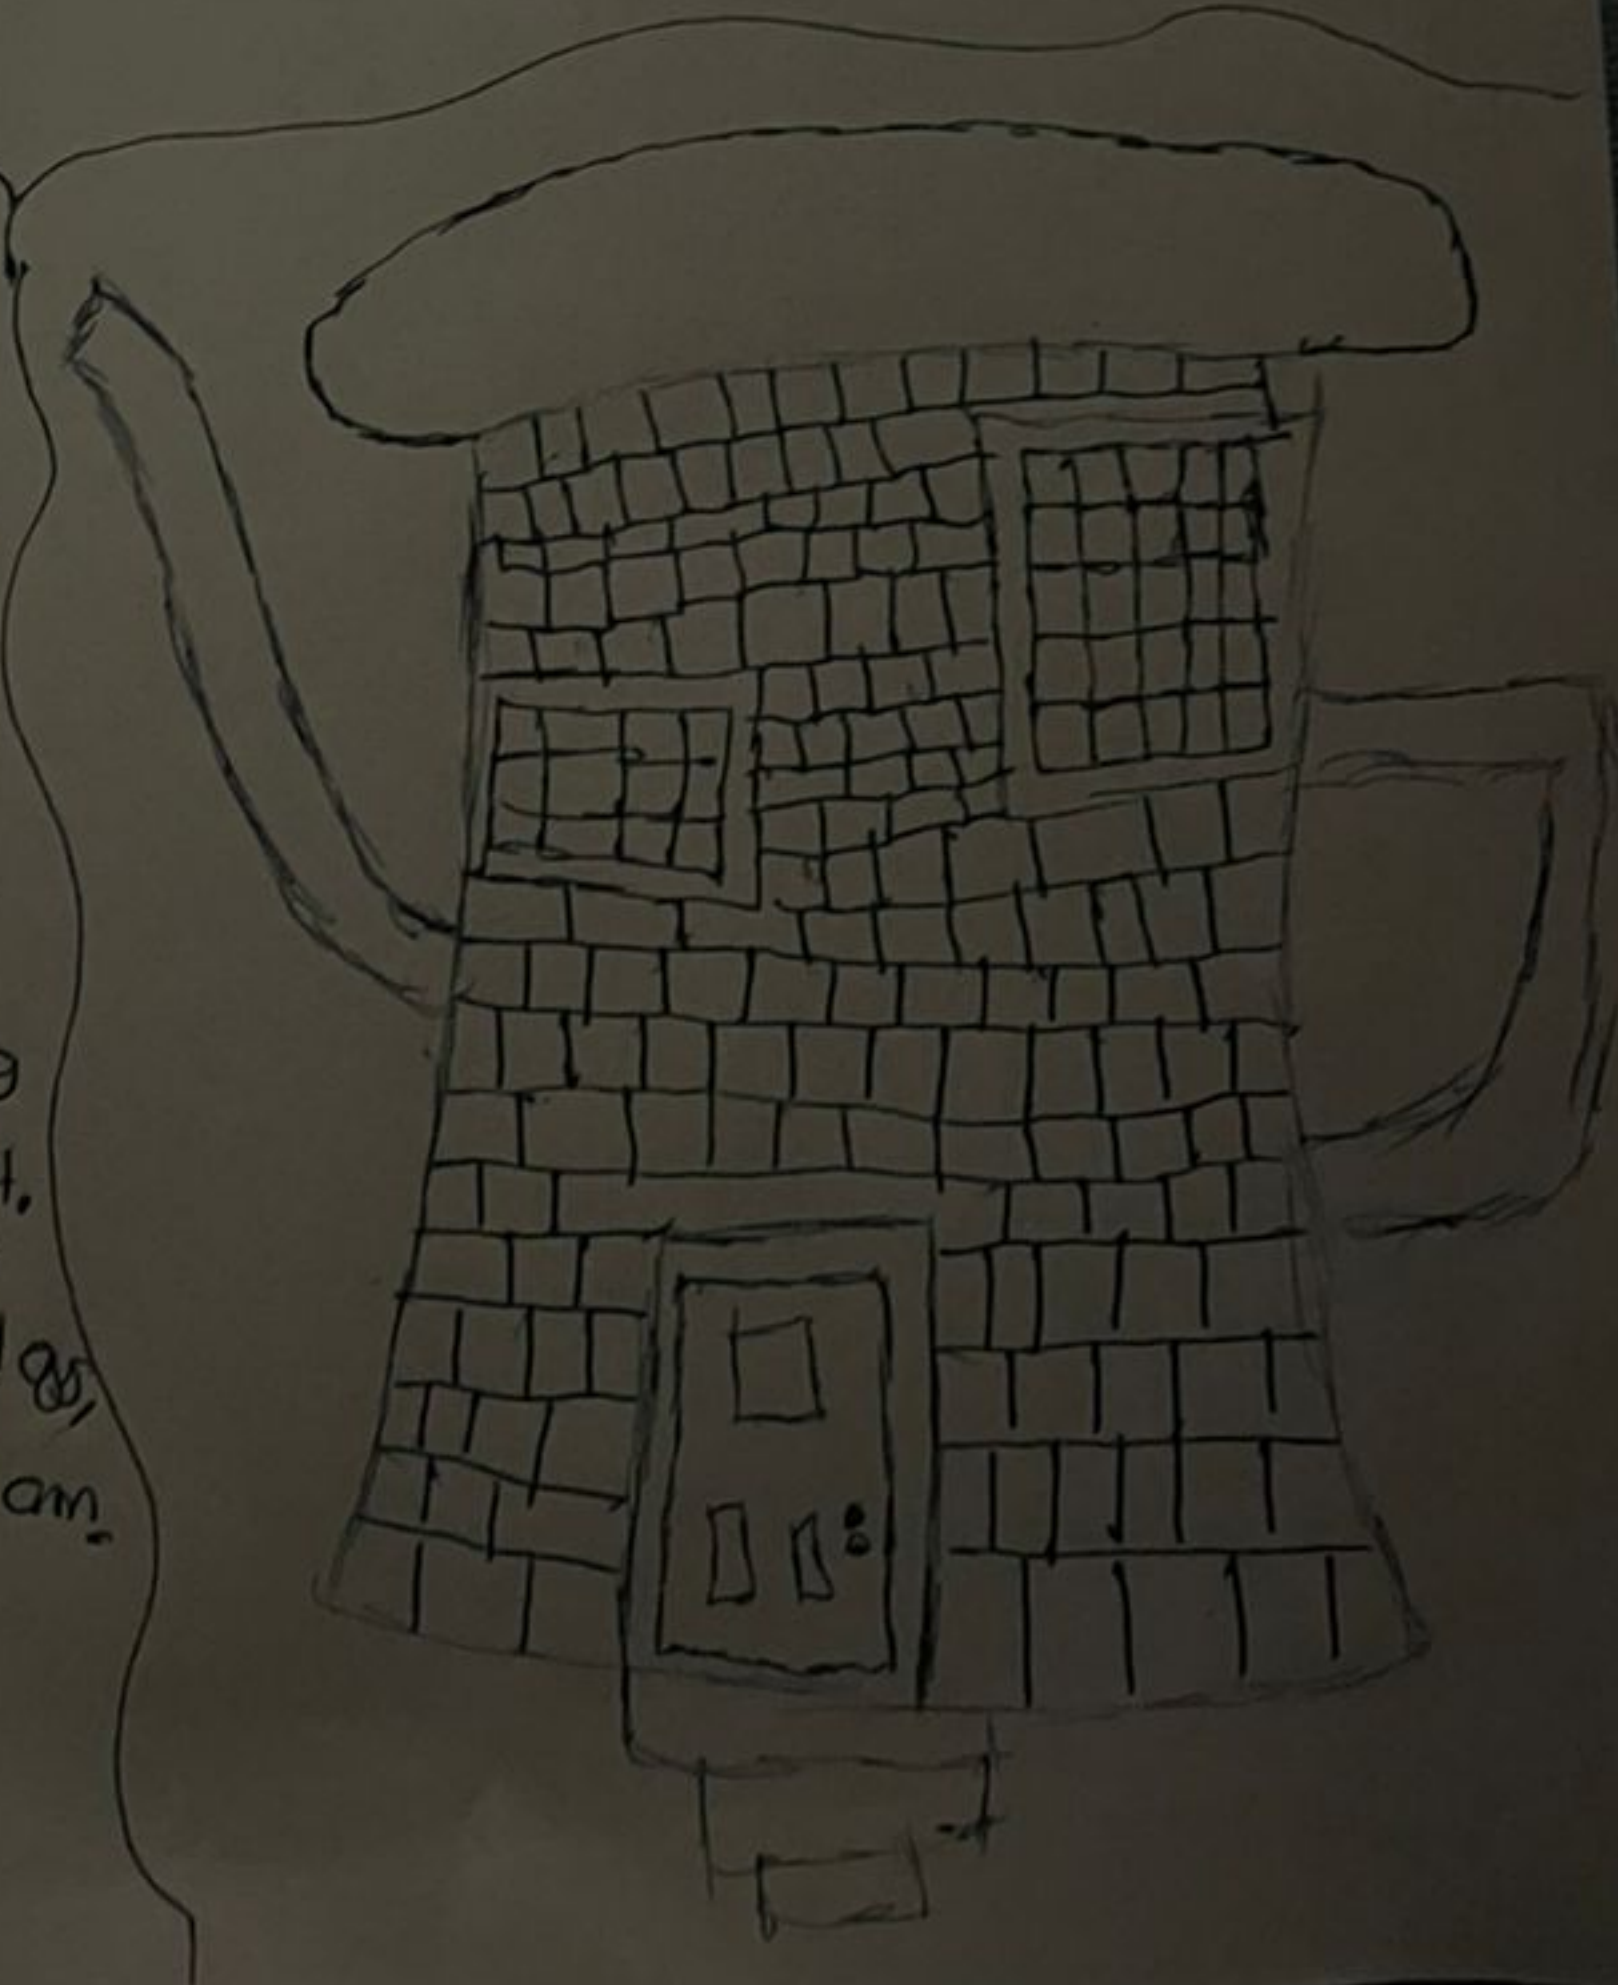

The image shows a unique
building designed to
resemble a giant red
strawberry. The structure
has small white dots
to imitate the seeds
of the fruit. The
strawberry's stem and
leaves are also visible.
It has
windows that look
like eyes and an arched
doorway at the bottom,
giving it a playful
and creative appearance.

This is a unique, futuristic building that appears to have an organic, spaceship-like design. It is elevated on these large, arch-shaped supports, giving it the appearance of floating above the ground. The structure is primarily a rusty, reddish-brown color, blending into the natural surroundings.

This is a small, quirky building designed to resemble a teapot. The structure is cylindrical, with a red and white exterior. The roof is red, and the walls are covered in white shingles with red accents around the edges. The building features a spout on one side and a handle on the other, mimicking the look of a traditional teapot. There is a door at the front and two large, curved windows, which add to its unique charm.
