"Research about unusual homes"

Juan Diego Orantes Mendéz

Bachelor's degree in Veterinary medicine  
and animal husbandry

Ing. Eduardo E. Arreola Jimenez

Tapachula, Chiapas, January 24 of 2025

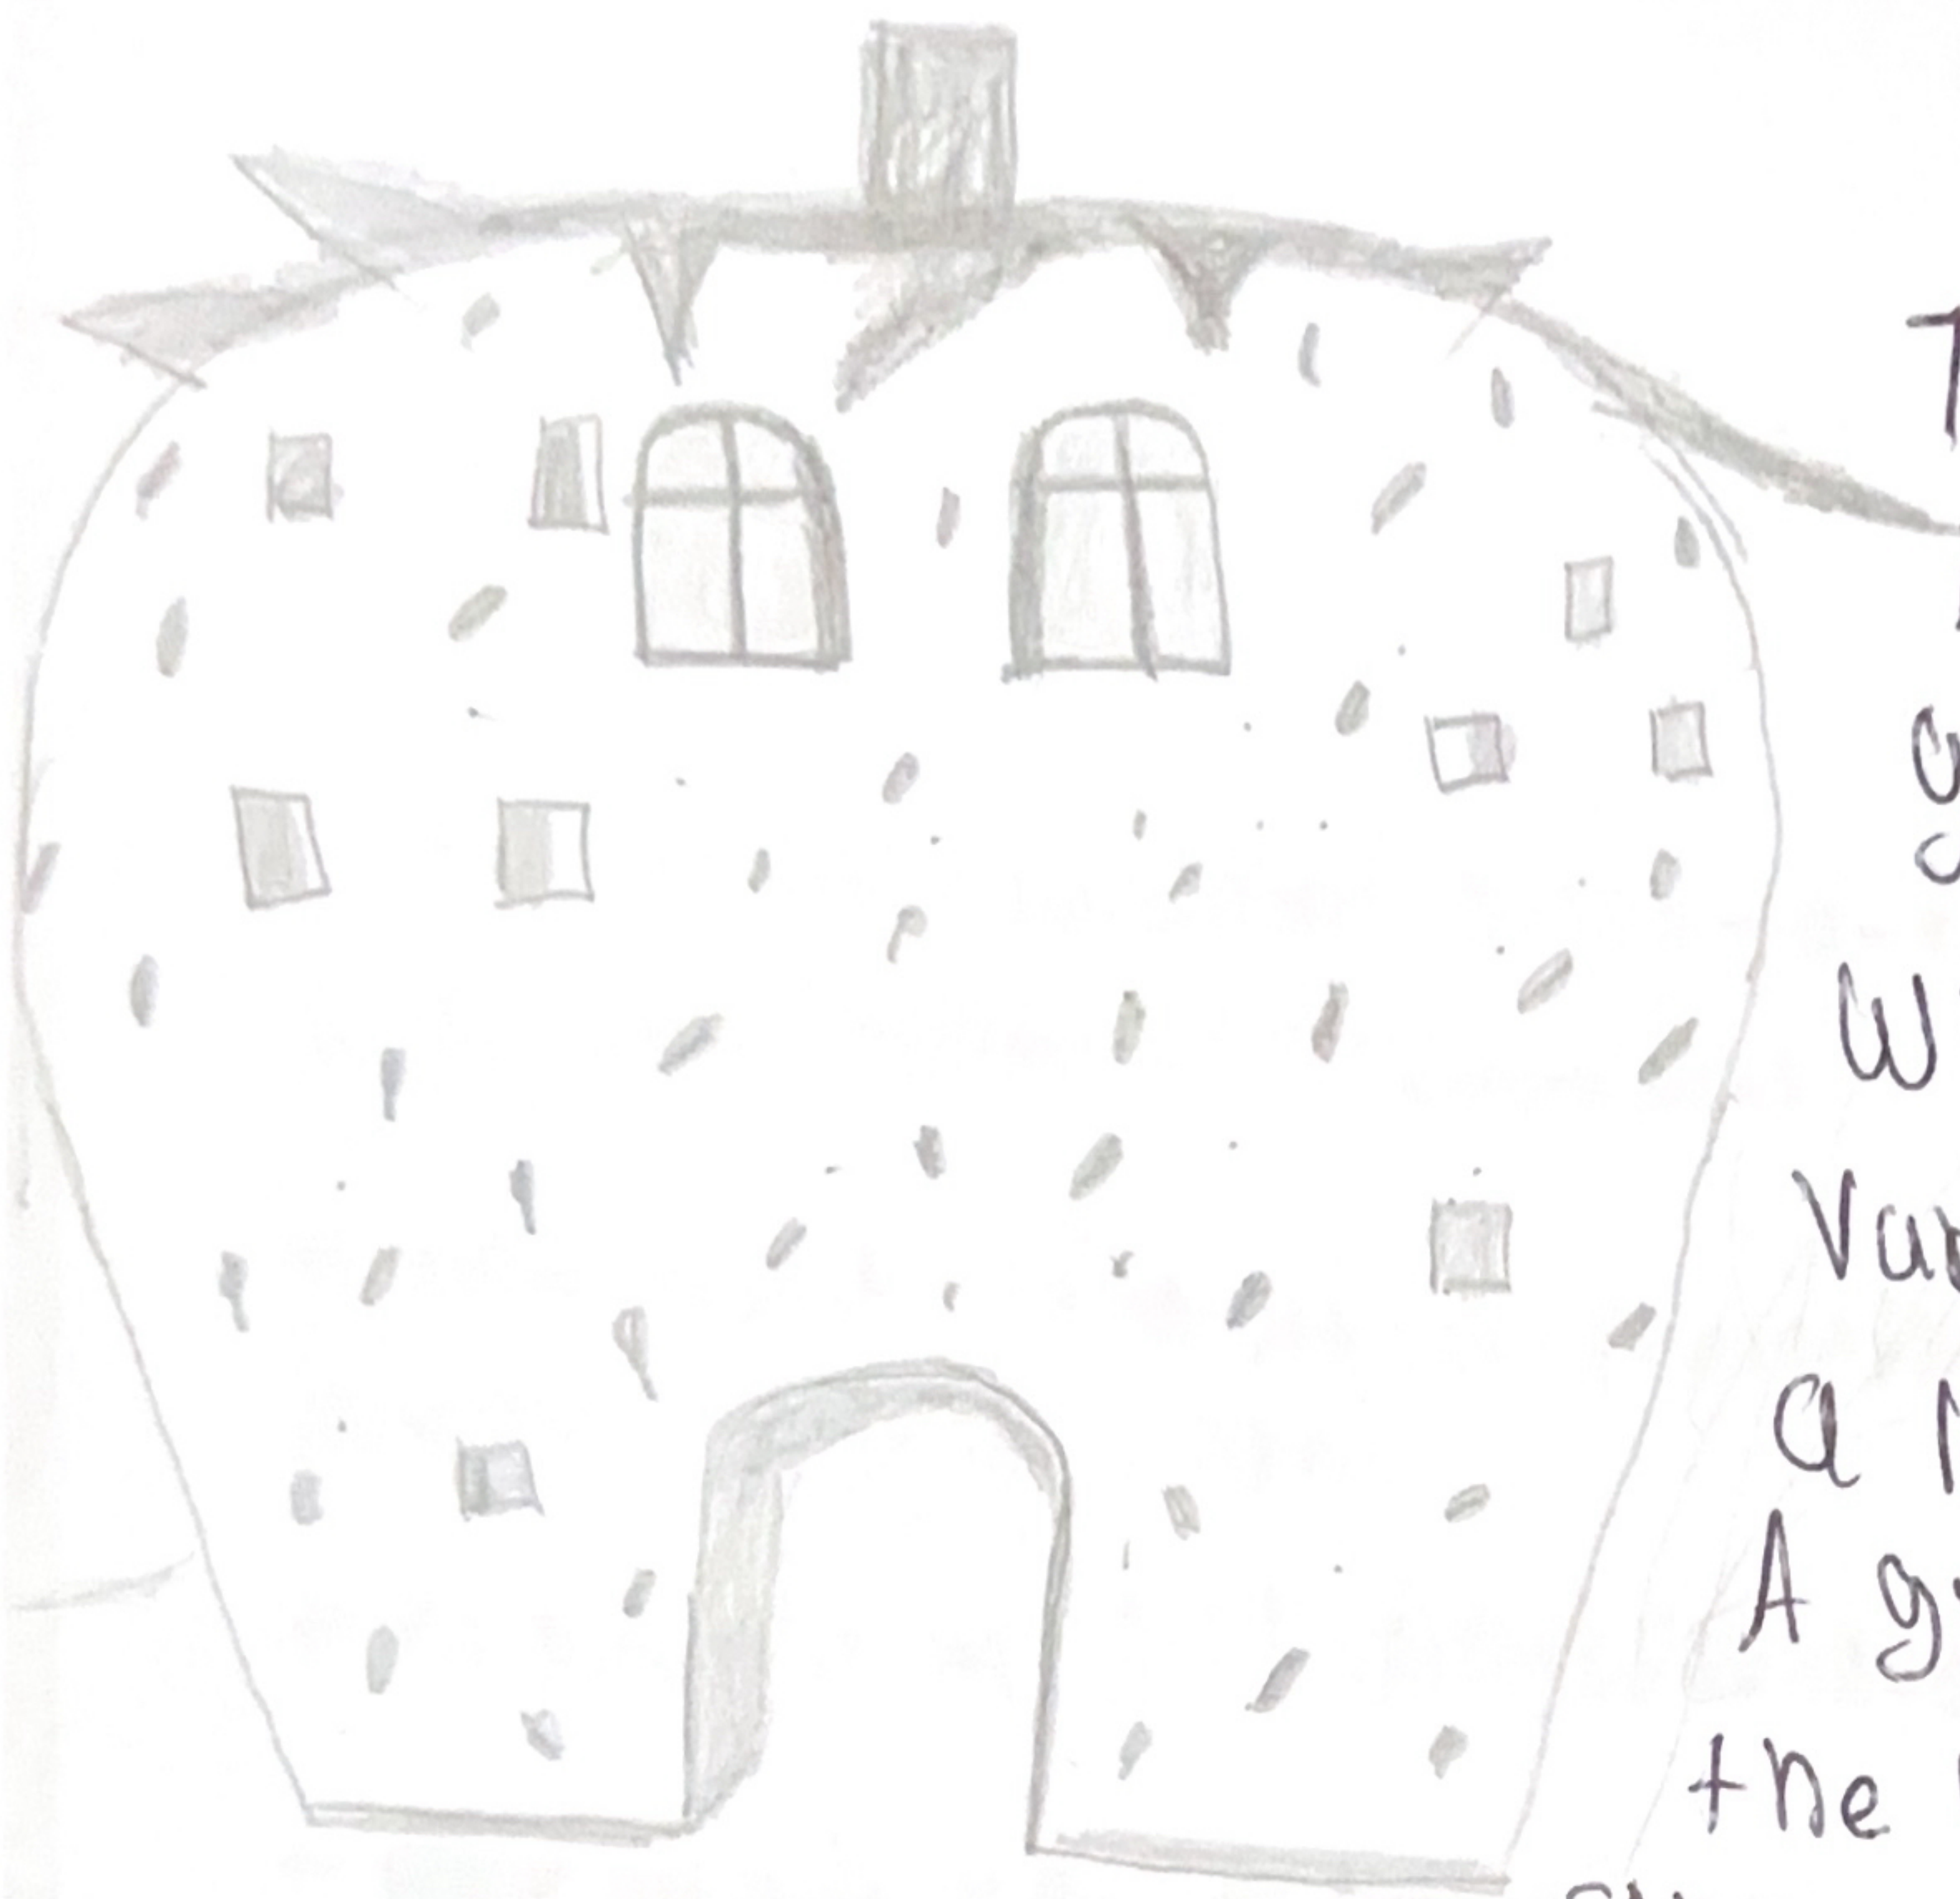

The house has a teapot shape with white walls, red details, and a central door framed by large windows. A spout and handle on the sides enhance its unique design, blending creativity with charm.

The house a mushroom shape with a white base and brown cap with white spots. It features an arched white door, wall lamps, and potted plants. The garden has a stone pathway and wooden furniture, creating a cozy, fairy-tale vibe.

This whimsical house is shaped like a giant red strawberry with white "seeds", various windows, and a large arched entrance. A green stem completes the look. Situated among greenery, it appears fun and unique.

This A-frame house is mainly built of wood with varying tones. It has two visible levels: above a wooden balcony above and large windows with white curtains below. A metal chimney extends to one side.
