Observably, this house is shaped like a strawberry, a truly uncommon sight. It features two floors, a balcony, and a small bridge that leads to the interior of the house. The visible exterior boasts multiple windows and bedrooms, each equipped with beds and closets. Additionally, the house includes a kitchen and other areas. The property also offers a scenic view of the surrounding landscape.

This charming two-story house offers a serene retreat. The upper floor is home to a cozy bedroom and convenient exit door. Meanwhile, the lower floor invites relaxation and connection with nature, boasting a tranquil living area, a fully equipped kitchen, a comfortable bathroom, and additional bedrooms for restful slumber.

This whimsical, mushroom-shaped tiny home boasts a single level and is built on wheels for easy mobility. Its distinctive roof and charming chimney add to its unique charm, while two windows let in natural light. Inside, the cozy interior features lush greenery, a comfortable bed, a compact bathroom, and a mini kitchenette. With its picturesque views of nature and effortless transportability, this tiny home is perfect for adventurous spirits.

This house features a unique structure and offers stunning views of nature, primarily the surrounding forest. It has windows on both floors, and the upstairs bedroom includes a bed, sofa, closet, and bathroom. The room also has a special area for observing nature, making it a cozy and peaceful retreat.
