A family day out

Last weekend, we went with my family to have breakfast at my grandparents' house, although it was a very hot day we enjoyed it a lot. When I arrived at my grandparents' house, my mother sent me to look for my aunt and uncle to have breakfast together.

However, they were not at home. On the other hand, when I finished eating I went with my cousins to play for a while in the back garden, My grandmother said to be careful when going out. Later we had a coffee with milk, said goodbye to everyone and returned home.

As my phone battery ran out to let my cousin know that we arrived safely, I was going to call back later, as I had promised him.

Since it was already a bit late, I took a bath and my mom said... hurry up with your homework so that you sleep early because tomorrow you have classes...

Therefore, I made all my earrings on time so that I would not be in a hurry the next day.

I could realize how happy I am with my family and that I have more than I can imagine with them by my side.
