MY MEMORABLE SUMMER ADVENTURE

The last summer i visited to my grandparents in the ranch, it was a sunny day and i was excited to spend my vacation with them.when i arrived i started talking with my cousins,who i hadn't see in ages while my mom was greeting my aunts and uncles

After talking for a long time and having a good time with my cousins and my grandfather, my grandmother, my mother and my aunts were making food in the kitchen while we were cutting oranges for dessert.

After finishing eating, my father had the idea of having a soccer game between cousins and uncles while the women of the family enjoyed some coconuts and watermelons that they cut in the morning when they arrived at the ranch.

As night fell we decided to make a bonfire and sat down to roast marshmallows when it started to rain and we had to go inside to have dinner and sleep well.

The next day we got up early to go out for a walk while grandmothe prepared breakfast and then we traveled back home.
